Summary: (machine translated) Hiking and swim canyon with a rappel in the side climb		
Hydrology:		
Access: (machine translated) From Corte on the T(erritoriale)20 we drive about 16.5 km in the direction of Ajaccio. Immediately before the new road bridge over the Vecchio (the "Pont Eiffel" railroad bridge on the right), we turn right onto the D723, which takes us into the Verghello valley. After 350m, we park our car for the exit where a hiking trail comes up from the left. 2.3 km further on we reach the bridge over the Ravin de Quarceto. We park the 2nd car here.		
Approach: (machine translated) To the left of the stream, we descend a little to the entry point. Then the C21 awaits us. This could be avoided by taking the access via the Bergerie de Piferini. We have to park the car about 500m before the bridge over the Quarceto. A road leads to the Bergerie, from there a path leads down into the stream (see IGN map).		
Tour: (machine translated) Further down the Quarceto we come to the watery Verghello. This is followed by a river walk with several possible jumps (including a "forced jump" of 6m) and several more small rappels.		
Return: (machine translated) At a huge rocky outcrop in the streambed, we can exit to the left onto a hiking trail that crosses here and get up to the road and the car. If we miss the exit point, the Vecchio awaits us about 350m downstream. We can soon see the bridges downstream. After the old road bridge, clear tracks lead up to the old road on the right. Cross the bridge to the other side of the river and follow the path up to the D723, then left to the car.
