Access: (machine translated)
see aerial photo in photo gallery; to the conversion also (however is to be considered regarding a conversion that about 17 winding kilometers must be driven altogether 1x additionally (about 30 min.). There is a way back under the bottom line from the time expenditure only max. 45 min. more elaborate.

Approach: (machine translated)
From the parking lot at the church down north, in the forest then keeping left to the bridge over "our" stream. After the bridge, turn right along the edge of the forest - parallel to the stream. Entry then before the notch of the stream (see sketches in photo gallery).

Tour: (machine translated)
8 rappels in a gorge, at the exit the Cascata Preafassa with 80m drop (15/65).

Return: (machine translated)
At the latest at the footbridge on the crossing path out (possibly earlier if you can see it on the right bank). The path turns towards the east and we cross the Torrente Aviana. A few meters later we meet the Sentiero "652". If there is a shuttle, go left (ONO), otherwise go right back to the parking lot of the entry (see sketches in photo gallery). The time needed to walk out to the lower car - if the car has been moved - is about 45 minutes, and to walk back to the parking lot at the church is about 2 hours. It would be worth considering that only one person climbs back with light luggage, but the rest walk down to the road, where they are then picked up by car.
