Summary:
Trekking/Hiking river with smaller climbing/downclimb sections; in summer usually without water, while extremely dangerous during heavy rain.

Hydrology:

Access:
Park the exit car in Port de sa Calobra; beware that the last section of the town leading down to the sea has access control restriction for residents and authorized only.
With the other car park near Restaurant d'Escorca.

Approach:
From the Restaurant S'Escorca take the hiking trail into the Torrent de Lluc.

You can also enter Pareis after the end of Sa Fosca / Gorg Blau, just continuing on the streambed and using Pareis for return (either to Sa Calobra or back to Escorca).

Tour:
Long hike, many downclimbs, some with fixed ropes in bad conditions and some not; climbing passages are well polished by countless hiking boots. In some passages at the beginning of the season you can also end in water pools and get wet till the belly.

Return:
When reached the beach and the sea, on the left you can notice the tunnel and the path which will take back to Sa Calobra.

From the hiking parking lot, follow the trail along the field. The trail is easy to spot. After that, just follow your instincts through the canyon, which has a few short sections where you'll need to downclimb. Right now, the canyon is completely dry. Unfortunately, the slippery spots have already been chiseled away with a hammer and chisel, and additional bolts have been installed. Total time from the hiking parking lot to Torrent de Pareis at a brisk pace: 1.30h. (machine translated)

Very deep and scenic gorge, covered in 2h 30min to return from Sa Fosca. This is an adventure route following faint tracks and among huge chaos of boulders that force numerous climbs on very greasy rock. No water flow but some deep pools to cross. Some fixed ropes in poor condition aid progression (no equipment required). Overall physical commitment not to be underestimated. (machine translated)

Currently no water, but a huge and very beautiful canyon. We did 2 rappels, but it can also be downclimbed. We came from Sa Fosca. You should do it if you're fit and still have enough time. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Pareis Exceptionnelle la partie sa fosca a voir une fois dans sa vie de canyon. On se demande comment une telle merveille a pu etre creer. Il ne ressemble a aucun autre canyon. Les boites a lettres et la couleur de l eau sont mystique.Fait en integral jusqu a pareis avec la sortie dans la mer (qui est aussi incroyable). On etait 6 (martel, doudou , tonio, quentin, anto). Fait en etanche particulièrement recommandé car l eau est glacé malgré une journée extrêmement chaude. Dans mon top 10 mondial. Depart du parking de l auberge a 9h45. Arrivé au parking payant de sa calobra a 18h45. Fait l integral (gorg blau sa fosca pareis) sans aucune pause en 9h00.
