<b>Specialities:</b>		
<b>Gear:</b> Ropes: 1x30m		
<b>Summary:</b> (machine translated) Small and short rappel canyon with slides and jumps. Generally abundant water flow.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) We leave the A6/A8 (Bern - Interlaken) at Lake Thun via exit 18 (Lattigen) and drive up the Simmental valley. After 34 km (from the highway exit) we come to Zweisimmen. The road on the right leads on to Gstaad, but we turn left and drive to Lenk (13 km from Zweisimmen). In Lenk we head for the parking lot at the valley station of the Waleggbahn (see Approach I and II in the photo gallery at carto.net).		
<b>Approach:</b> (machine translated) From the valley station of the cable car we take the hiking trail towards Wallbachschlucht, which leads upwards along the Wallbach. After some time we cross the Wallbach to the orographic left side and continue upstream with a view of the waterfalls. We come to a bridge where the trail changes again to the other side of the stream. We follow the path uphill, but leave it at the second serpentine and climb down to the stream without a path. Now we can either enter directly here (E2) or continue hiking and climbing up the creek on the orographic left bank on indistinct tracks. Here the stream offers some nice jumps and slides.		
<b>Tour:</b> (machine translated) After our start (E1) downstream so first the mentioned playful elements, then the canyon, which offers besides some rappel also slides and jumps. When the last rappel is "done" and the stream loses interest as we proceed, we exit to the left onto the path.		
<b>Return:</b> (machine translated) Down the trail, over the bridge and back to the cable car parking lot.

One week after the big flood which destroyed the hiking trail and bridges. Many anchors at 3 or -1m, tricky downclimbs as a result. I set a few anchors, but not so that you can now get through the canyon comfortably. But it is a nice tour. (machine translated)
