<b>Summary:</b> (machine translated) Largely narrow rappel canyon with several small slides.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Zirl up towards the Hochzirl regional hospital, take the parking lot to the left of the entrance to the hospital grounds.		
<b>Approach:</b> (machine translated) There are 2 possible access routes: 1) "from the right": from the parking lot along the forest path "Welscher" (for a long time along the 1000m contour line) and at the first fork follow the path (past a wooden beam) straight ahead to the streambed. At the confluence (= exit), cross the Grieskarbach and follow the path orographic to the right for approx. 200m up to the entry point. 2) "from the left": from the parking lot, follow the forest path "hoher Stich" (always orographic left) until a path branches off down to the streambed at approx. 1240m, follow this to the entry point.		
<b>Tour:</b> (machine translated) Immediately after the start, the stream gorges. Alternating running routes, rappel and downclimb. Again and again deadwood obstacles in the stream. In the meantime, the canyon becomes a bit more open. Where the Ursprungbach ripples down from the right, the tour comes to an exit.		
<b>Return:</b> (machine translated) Turn left onto the path, which first leads downhill along the stream. At the slide brake, it then leads up to the left and we come back to the "Welscher" forest path. Keeping horizontally to the left at a junction, we return to the parking lot.

Currently no ice. Rock very slippery. Grödel may be an advantage for access. (machine translated)

We liked the tour very much, countless small slides. Not so much dead wood. We only needed 45 minutes for access. (machine translated)

3 anchors newly drilled. Currently lots of gravel and old wood. No ice/snow in the canyon. (machine translated)

2024-05-18 | Tobias Beiser | ★★☆☆ | 📖★★★★ | ⚓★★★★ | 🌊 Normal | 🍏 Completed  
4 anchors newly drilled. Unfortunately a lot of wood in the last parts (machine translated)

Superiore tour. Compared to last year, the basin is not very clogged. Some anchors need to be replaced (in the lower parts you could simply pull one out of the wall...). - Here a makeshift sling made from old rope). 8+32m rappelled in one piece. (machine translated)
