Specialities:

Gear:

Summary: (machine translated)
Recently opened (they are still working on it), it consists of two rappel zones, the canyon and its tributary. For collecting or for practice.
If we have high vehicle we will be able to arrive almost up to the head of the canyon.

Hydrology:

Access: (machine translated)
We must be located near Cirat, on the CV20, direction Onda.
At km 35.5 is the detour to the village of El Tormo, go up to him, just at the entrance to the right is a track where we get. After 500m we will take the track that goes to the right, we will follow this track without deviating from it in ascending direction for 4 km until we pass the pass of Jupillo and in the next right curve we park to one side.

Approach: (machine translated)
We go east to the head of the first ravine which separates us just 400m. If we continue around this small cirque we will arrive at the second ravine.

Tour: (machine translated)
See mole

Return: (machine translated)
Along the riverbed for about 200m and then turn left to go back up to the track. At the headwaters closest to the vehicle we can go uphill to the left to go back up to the headwaters.
