Summary: (machine translated)
An attractive water park above the water intake, featuring ice-cold water, beautiful pools, and several fun slides.

Hydrology: (machine translated)
Note: This is possible only when there is little water in Moleno.

Access: (machine translated)
Take the toll road from Claro (10 CHF or EUR in coins; you can use a mix of CHF and EUR) to the Boggera superiore parking lot (see the literature/Swisstopo for directions).

Approach: (machine translated)
Across from the parking lot, follow the narrow path through the houses. Keep left at the fork. Walk past the warning sign for the power plant at the Boggera Sup trailhead and continue along the path until you reach a small hamlet. Cross through the hamlet and keep to the right, where the path becomes clearer again at the top edge of the meadow. At an elevation of 1,430 meters, turn left into the stream.

Tour: (machine translated)
A few fun slides alternate with beautiful rappelling spots.
It is not necessary to check in or out at the power plant for the section of the tour above the water intake.

Return: (machine translated)
After the last waterfall (the second one past the bridge), the canyon opens up. There, take the exit to return to the hiking trail above the little village. Follow the trail back to the car.
