Season: June - November	**Orientation:**	**Best Time:**
Rating: ☆ 2 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Very aquatic canyon, very long and with a couple of steps a little compromised if the flow is high.

Hydrology:

Access: (machine translated)
Situation Bcos Aveller, Gol/Espunya and la Vansa
We must be on the C14 between Organyà and Seu d'Urgell.
Leaving from Organyà we will have the detour to Montant de Tost on the right, we make the right curve, we pass the tunnel and in the left curve that is the access to the quarry we will be able to park the car of return.
We will continue along the road towards Montant de Tost, after passing it the road becomes a track, turns to the north and surrounds the bco de l'Espluga to start the descent towards the river returning again to be road. When we reach the side of the river, after several sharp bends, we reach a bridge and a track on the right. We park here

Approach: (machine translated)
Accesses Bcos Aveller, Gol/Espunya and the Vansa
We leave towards this track and the fields, descending along the orographic right bank of the river. We will pass the torrent of Espluga and we will see the cliff walls where the descent begins.

Tour: (machine translated)
Descent without difficulties if the flow is low. There are only 3 easy rappels. The problem of this descent is its distance, you get tired of walking along the river, and it is very difficult if the flow is high.

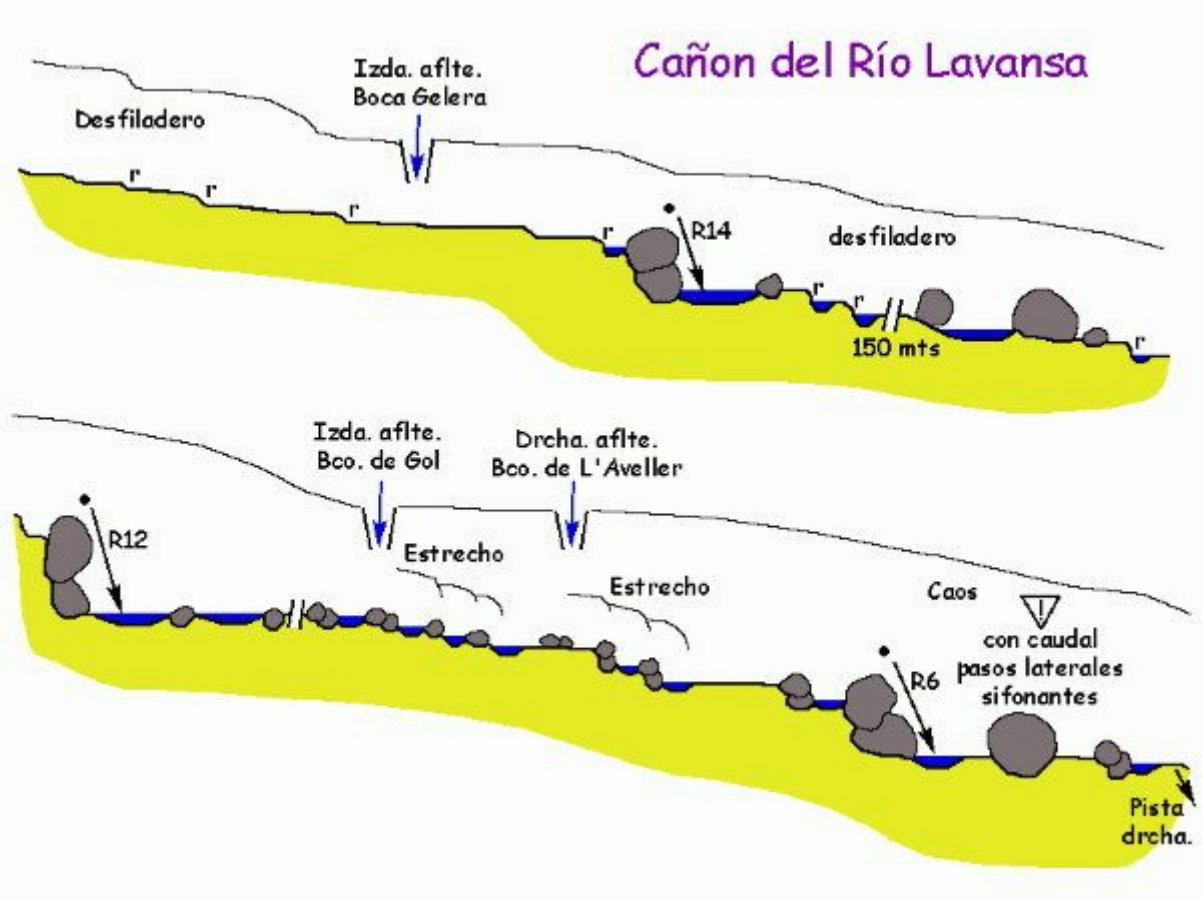

Return: (machine translated)
After the R6 the narrows open up and we see a track leading up to the quarry and the road where we park.

Coordinates:
Canyon Start 42.2368 1.4235
Canyon End 42.2419 1.3513
Parking at Entry 42.2389 1.4378
Parking at Exit 42.2451 1.3490
