Automatisch importiert von Descente-Canyon.com für Canyon Cély Départ depuis un rappel au dessus du topo bouquin, 26m, avec une cassure un peu saillante pour la corde, mais magnifique. A la cascade de 65m il est préférable de prendre le relais au milieu, récupération de corde sans problème. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2718/observations.html)
