Summary: (machine translated)
rappel canyon

Hydrology:

Access: (machine translated)
We leave the highway via the exit "Sierre-est" and drive to the exit of the Raspille east of the village of Miège (see Google aerial photo in photo gallery and map sections under "other maps"). We park our car here and it would be possible to transfer (1 km).

Approach: (machine translated)
From the car at the edge of the vineyard terraces above the canyon up, through the forest and then east down into the streambed.

Tour: (machine translated)
Just over 20 rappels. Since not continuously cut, some emergency exit possibilities (mostly to the left). Some possible jumps. After the 34m rappel, the canyon becomes less attractive.

Return: (machine translated)
Before the bridge, go out to the left, then over the bridge and to the car (up to the right).

Automatisch importiert von Descente-Canyon.com für Canyon Raspille Ca manque de flotte. Au départ petit filet d’eau puis très vite sec. Eau correcte néanmoins, fraîche. Les quelques vasques sont parfaites pour éviter l’hyperthermie. Amarrages ok. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21006/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Raspille parcourue la partie haute jusqu'à la via ferrata avec des clients niveau d'eau sportif : guidés, tyrolienne et manip de cordes nécessaires.cependant partie très ludique avec ce niveau d'eau.pas fait la grande cascade car trop d'eau je pense qu'il est difficile d'arriver dans la niche de la C35 sans se faire déglinguer.mais les niveaux d'eau sont en baisse en Valais donc bientôt tout est faisable !
