<b>Summary:</b> (machine translated) rappel canyon, narrow, partly technical, dry		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) We leave the AP-7 (Autopista de la Mediterrania) on the way from Tarragona in the direction of Valencia about 23 km after crossing the Ebro at exit 43 - Vinaros. After leaving the highway, however, we turn left and head north on the CV-102/T-332 to Ulldecona. For further approaches see: * <a href="http://www.wikiloc.com/wikiloc/view.do?id=7922340">http://www.wikiloc.com/wikiloc/view.do?id=7922340</a> We park our car at a water trough.		
<b>Approach:</b> (machine translated) From here, we follow a path that crosses the streambed and heads up the ridge on the other side. We just have to follow the red markings. We cross a rocky ledge and come to a wide hollow. In this we walk downhill without a path until we reach the narrowing (entry).		
<b>Tour:</b> (machine translated) One rappel "chases the next", beautiful views, at the end very narrow and technically somewhat more demanding.		
<b>Return:</b> (machine translated) At the bottom we follow the path down through bushes and coppice to the streambed of the Barranc de la Vall. In this descend to the car.
