Specialities:

Gear:

Summary: (machine translated)
Collector's canyon, with nothing to contribute. A couple of rappels, a couple of jumps, ... you return by going back up. In summer it can dry out and it is no longer interesting to do it.

Hydrology:

Access: (machine translated)
From Igualada to La Llacuna here we take the BP-2121 to Torrelles de Foix and at pk19 we find some warehouses "Cal Curt", with a track that surrounds them and goes down to a meadow where we park.

Approach: (machine translated)
Along the path parallel to the river we descend until we reach the dam.

Tour: (machine translated)
We climb the dam and jump the following ones. In the rappel of 10 we leave the rope installed to be able to go back up on the return.

Return: (machine translated)
We can go up the ravine if we have left it installed or go to the right in search of the path that runs parallel to the river.
