Summary: (machine translated)
Dry rappel canyon

Hydrology:

Access: (machine translated)
After bypassing Geneva on the Swiss N 1 after the national border, take the A 40 in the direction of Lyon, Dijon, Paris. After 25 km (from the border) take exit 11 (Bellegarde Center) in the direction of Fragny, Seyssel. 6 km further on, at the end of Mons, turn right onto the D 992 and drive through Seyssel and Culoz (another 23 km), where you continue on the D 904 (towards Bourg-en-Bresse) for another 8.5 km to Artemare (62 km in total from the border).
In Artemare, turn half right at the prominent left-hand bend (Rue de la Poste), cross the D 31 (Cote d'Yon) at Place de la Liberté and continue along Rue du Stade towards the school district and then out of the town. We reach the nearby bridge over the Sèran and park the lower vehicle on the left immediately after the bridge.
Take the other vehicle back to Place de la Liberté and turn left onto the D 31 (Cote d'Yon). The road winds its way up to the hamlet of Don. The D 31 crosses the Groin ("Gouffre ..."). Where it turns north a few hundred meters later, turn left onto a dirt road that leads down to Sèran. Park after the bridge.

Approach: (machine translated)
From the parking lot, head southwest; if you have problems finding the access, proceed to the viewpoint, then west. Here you will immediately come across the dry canyon and walk along it in a northerly direction until you can climb in. If necessary, rope in from the edge via a tree.

Tour: (machine translated)
The Sèran flowed through this canyon until it carved out the current course of the river; an alternative for the Cerveyrieu if there is too much water in the narrow access.
Good to combine with the canyons of the Sèran and the Groin.

Return: (machine translated)
Immediately after the high rappel in a westerly direction up under the rock face and along it until you find a suitable ascent to the top (the author did not succeed optimally, no clear path - 2008). Once at the top, return to the parking lot without a path.
