Summary: (machine translated)
Generally dry except after rains or in spring when it reaches its maximum splendor.

Hydrology:

Access: (machine translated)
We are located in Organyá towards Seu d'Urgell on the C14, after pk170 we will arrive at Hospitalet de Tost. Here we have the detour to the right towards Castellar. Shortly before arriving we have a sharp right turn with a track on the left, park the return car here.
With the access car we will continue along the road to Castellar, cross it and continue along the track that goes up to a junction of tracks that we will take to the left, past a water pond we will park.

Approach: (machine translated)
With only one car we will go up the same access past the pond.
We will continue along the track walking until we reach the height of the electric cables and a canalization, there we will go down to the creek.

Tour: (machine translated)
Dry descent except in spring when it can be lively and can be a very entertaining descent.

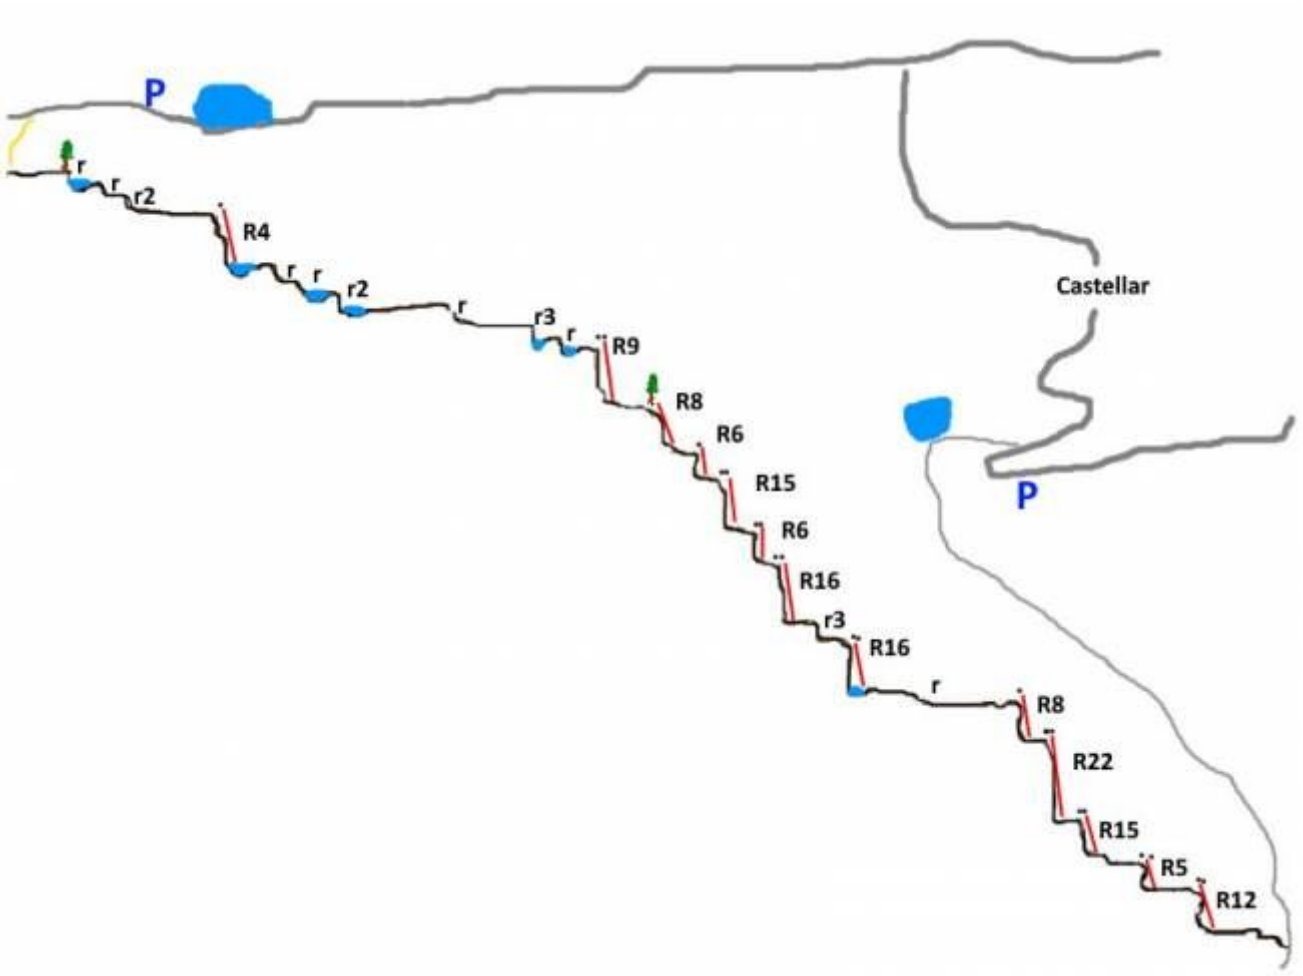

Return: (machine translated)
We will cross a track that we can take to the left towards the pond and from there to the road (recommended).
We can also follow the stream to the Riu Tost and there take an old track that also goes up to the pond.
