Summary: (machine translated)
Open hiking and rappel canyon

Hydrology:

Access: (machine translated)
On the N 110 either from Avila or coming from the direction of Plasenica, park car in Jerte by the bridge over the stream (tourist info).

Approach: (machine translated)
Follow the road on the orographic right side of the stream uphill. Then there are 2 ways to get to the entry point, see Internet sites. We took the path on the orographic left side of the stream and climbed up the streambed from the old concrete footbridge (1 hour each way). Before the first high rappel (Chorrero de la Ventera) we climbed the orographic left slope steeply and pathlessly up to the entry. The alternative via the orographic right side of the stream seems a bit more comfortable.

Tour: (machine translated)
9 rappels, see photos and video

Return: (machine translated)
A little above the concrete footbridge out to the left, then on the orographic left side of the creek back to the car
