Ropes: 1x30m

Summary: (machine translated)
Aquatic canyon in gloomy ambience.

Hydrology:

Access: (machine translated)
Leave the Rhone Valley highway A-7 (Autoroute de Soleil) at exit 19 (Bollene) and head west past Pont-St. Esprit to Bagnols. From there, continue to Alès (approx. 70 km). In Ales, take the N-106 leading to Mende and after 56 km you will reach Florac. Before reaching Florac, turn south onto the D-907 towards Meyrueis. After 5.5 km, follow the road to the right at a junction and after another 9.5 km, in the hamlet of les Vanels, turn left. 5.5 km later, in Rousses, leave the D-907. Turn right onto the D-119, after approx. 4 km you will reach a parking lot with a signpost (before a right-hand bend). Park your car here.
From the beginning of June to the exit of August, use the parking lot in Rousses set up for canyonists and take the shuttle bus to the entry (see regulations below).

Approach: (machine translated)
From the parking lot east down to the creek

Tour: (machine translated)
The attractive canyon in the dark granite rock has no boring walking passages, some good possible jumps and is also heavily frequented commercially (so get in as early as possible). The water is fresh even in summer and the rock is slippery.

Return: (machine translated)
On clear path left up to the road and on this back to the parking lot

Coordinates:
Canyon End 44.1823 3.5775
Canyon Start 44.1818 3.5737
Parking Entry and Exit 44.2060 3.5893
Parking Entry and Exit 44.1933 3.5861

Automatisch importiert von Descente-Canyon.com für Canyon Tapoul Un petit joyaux ce tapoul, debit correct, tout les saut passent, au vu de la numérotation des obstacles il y aurait potentiellement une suite après la sortie officielle ? (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2159/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Tapoul Super ludique, corde déjà en place pour les mains courantes afin d’accéder au saut ????En basse saison quand il n’y a pas la navette En descendant vers rousse, passer le canyon et garer vous dans le virage plus bas où il y a un banc en bois, si vous sortez à la première sortie (avant la marche et les 2 dernières obstacles) Sinon se garer dans un virage à gauche plus bas après un bâtiment et un rétrécissement de voie (large place sur la droite) pour l’intégrale. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2159/observations.html)
