## **Specialities:**

Dam,

## **Gear:**

Ropes: 1x20m+1x25m

## **Summary:** (machine translated)

Except for the more attractive final section relatively open forest canyon

## **Hydrology:**

### **Access:** (machine translated)

Leave the Inntal freeway A 12 (Kufstein - Innsbruck) at the exit Vomp and follow the L 389 southeastwards across the Inn to Pill. Across the federal road 171 on the Schloßbichl in the direction of Pillberg. In the first left-hand bend we drive straight on along the orographic right bank of the Pillbach up to the garbage collection point. There park the lower car at a suitable place. With the second car back on the Schloßbichel and right up the L 53 in the direction of Pillberg. After 1 km the road makes a rightward hairpin bend, after another 800 m we turn right again onto Pillbergstraße. Another 500 m further on we turn right onto Steinwandweg in the direction of Müllau. About 1 km after this turn we come to a meadow enclosed by woods. Here, where a field path branches off to the right at a sharp angle, we park the second car.

### **Approach:** (machine translated)

On the dirt road to bridge over the Pillbach, on the left bank about 100 m downhill to the slide brake - entry.

### **Tour:** (machine translated)

After the optional first rappel on the boulder brake, we alternate between running sections, pools, places to downclimb and rappels again. After about 1.5 hours we come to a wooden bridge on iron girders. This is where the more attractive vertical final section begins.

Caution: In the upper reaches, there is a water drainage with a small reservoir.

### **Return:** (machine translated)

After the last rappel, go out to the right on a path and later go down to the car on a forest path.
