Summary: (machine translated) Open forest canyon in attractive scenery; slippery.		
Hydrology:		
Access: (machine translated) From Feverges in the south of Lac d'Annecy on the D 12 in the direction of Thônes (NNO) via Saint-Ferréol to Serraval. About 1.4 after Serraval, we turn left off the D 12 in the hamlet of La Bottière, cross L'Ermite and then head up towards Montobert. We look for a suitable parking space at the somewhat scattered houses.		
Approach: (machine translated) From Montobert, follow the slope upwards across meadows. Soon after entering the forest and almost at the beginning of a longer straight stretch, a path branches off to the left - barely recognizable - which leads us to the streambed.		
Tour: (machine translated) Descent in off. Forest canyon with about 12 easy rappel. .		
Return: (machine translated) After the final three-pack rappel still about 5 min. in the streambed. Then on the left there is an overgrown meadow. Here a path once crossed the stream - also marked on maps - but it is completely overgrown and no longer recognizable as such. Through the meadow uphill we come to a meadow path that takes us up to the village and the car.
