<b>Rating:</b> ★ 3.9 (4)	<b>Info:</b> ★ 3 (1)	<b>Belay:</b> ★ 3 (1)
<b>Specialities:</b>		
<b>Gear:</b>		
<b>Summary:</b> (machine translated) Well-known canyon with high fun potential: slides, jumps, some rappels, attractive narrow section towards the exit.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) We head for the village of Bocognano on the N193 (Ajaccio - Corte). Either about 40km from Ajaccio or about 41km from Corte over the Col de Vizzavona (1183m above sea level). At the eastern exit of the town, we follow the sign "Richiusa" and take the small road downhill in a northerly direction. After 950m we turn left downhill a few meters before reaching the hamlet of Busso and after another 700m we arrive at a small electric plant on the bank of the Gravona. Here we park the car.		
<b>Approach:</b> (machine translated) Cross the Gravona to the northern bank and, keeping to the right, follow the path in a northerly direction. After about 250m, at the fork, take the path that descends to the right, cross the Cardiccia/Richiusa and climb up the slope on the other bank for about 25 minutes. At about 800m above sea level, the path branches again. On the right (NE) we would go to the canyon Leccia Rossa, we take the left path to the Bergerie Matone. There we can follow the path up to the streambed.		
<b>Tour:</b> (machine translated) First river walk between and over large boulders and with possible jumps into blue-green pools (if the sun is shining). At about 720m the canyon begins, although it is still relatively open at the beginning. Now follow slides and possible jumps, the canyon narrows and - felt - much too early we have already reached its exit.		
<b>Return:</b> (machine translated) After a few minutes in the stream downhill left out onto paths used by climbers. Downhill to the bridge, there to the other bank and on the approach path back to the car.

## Reports:

2026-06-07 | System User | |📖|📌|🌊 Low |👍 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Richiusa Peu de débit pour les toboggans, attention au niveau de la goulotte pour le saut, il y a au moins 1m en moins d'eau par rapport à l'habitude, sondez avant. Sinon le cadre est toujours magnifique :) (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2328/observations.html>)
