Summary: (machine translated)
The ravine is generally dry and of little interest except after rainfall.

Hydrology:

Access: (machine translated)
We are located in Ainsa (N260), we will take the A138 towards France through the Bielsa tunnel. After a few kilometers we will pass through Labuerda and at pk57 we arrive at Escalona.
Here we will take the detour to Puyarruego/Fanlo and soon to Puyarruego, just after crossing we can park in the bathing area or try to park on the access track. To reach this track we follow the road next to the campsite and at the left turn we will see the track that goes to the right.

Approach: (machine translated)
We will go up the track until it crosses the riverbed.

Tour: (machine translated)
A few steps will lead us to the final part where we have the rappels, especially the final 45m which is divided into 30 + 15m.

Return: (machine translated)
When we reach the Bellós we can follow the river to jump from the dam or go along the shore until we can find a place to go up to the road.
