Summary: (machine translated)
Or Bolulla river canyon, it is a short canyon but very funny if you take it with water.

Hydrology:

Access: (machine translated)
We must get to Callosa de Ensarriá. Here we take the CV715 towards Bolulla a couple of kilometers and turn off to "Font de l'Algar". At the bridge over the Algar we turn left and park (there is a restaurant).

Approach: (machine translated)
We follow the track upwards (at the top we could park another car). At the top there is a path to the left, we take it and go down to the stream.

Tour: (machine translated)
Normally it has little water at the beginning to collect water from springs. Anyway it is a short canyon but very fattened so you have to be careful if it is raining.

Return: (machine translated)
After the last rappel we continue along the riverbed and soon a track on the right. We follow it to the parking lot
