Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 2300m	**Highest rapell:** 57m	**Amount rapells:** 9
Transport:	**Rock type:**	**Drainage area:** km²
Season: September - May	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Dry gully, almost of collecting, neighboring the Presseguer and Casa Forestal de la Tenalla. It has a couple of interesting spots and a lot of uninteresting area. Better to avoid the summer and the hours of more sun. There are some rappels without installation, but can be installed from trees.

Hydrology:

Access: (machine translated)
We will have to go to La Sénia by the CV105 towards Fredes, when crossing the bridge of the reservoir of Ulldecona, we will see a track on the right by which we will go up with the car.
After passing the tail of the reservoir we will have a fork, on the right the Bco de Fou, we will continue on the left. 1,5 kms later another fork at the exit of the Bco de Presseguer. We park here.

Approach: (machine translated)
We will leave by the track by which we accessed and after a kilometer and a half the track crosses to the other side, 500m later we will have a path on the right that goes up to Mas del Paraire through the cliffs. Once in the Mas we take the track to the Tosal de Cervera and a path to the right puts us on the crest of the mountain, which we will follow until before reaching the next track (about 800m). We have our ravine on the right, we must look for the best place to descend.

Tour: (machine translated)
See topography

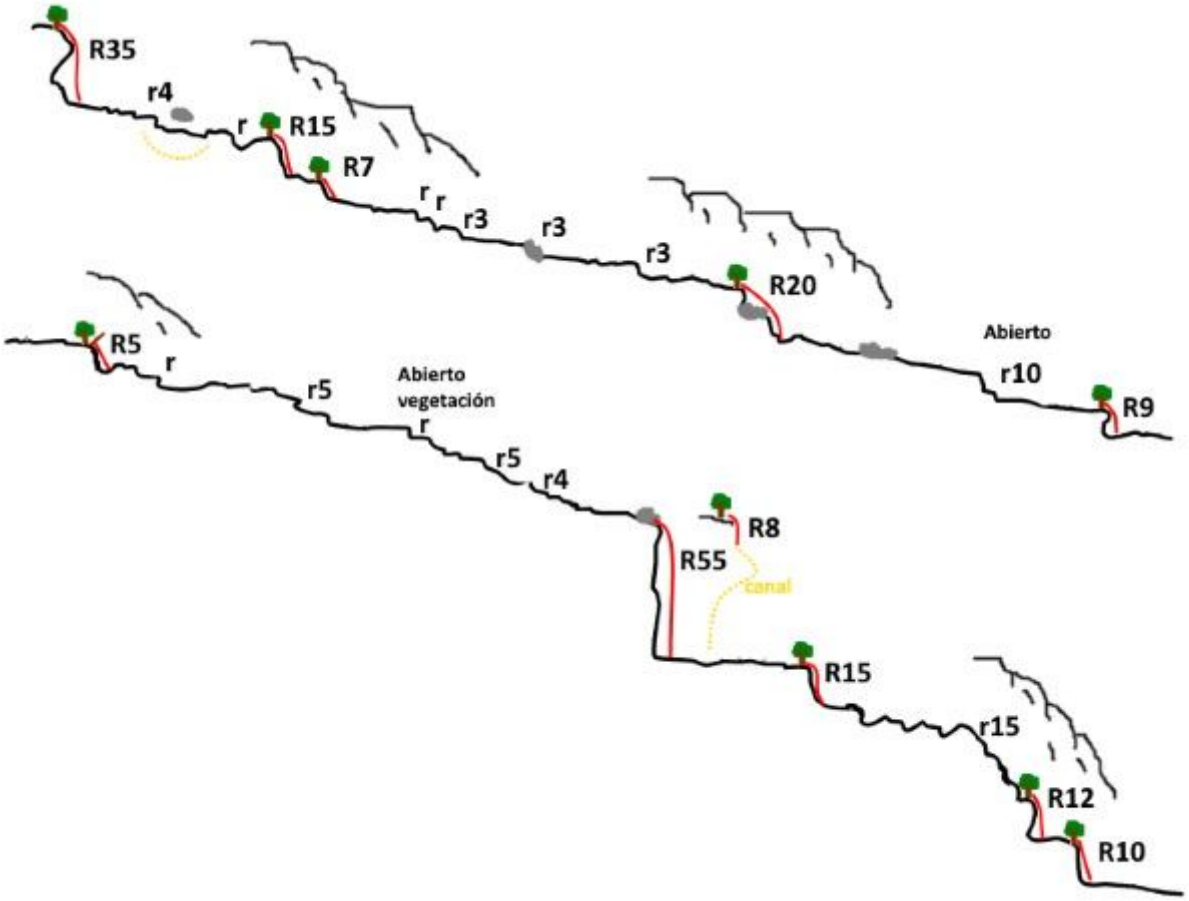

Return: (machine translated)
We will follow the dry riverbed until we find a track (exit of the Presseguer bank) we will follow it until the confluence with the track where we parked.

Coordinates:
Canyon Start 40.7269 0.2091
Canyon End 40.7164 0.2132
Parking Entry and Exit 40.7094 0.2176
