Transport:	**Rock type:**	**Drainage area:** km²
Season: September - May	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Also known as Arroyo de Hoya del Peral II, ideal to combine with its neighbor Peral I. Impressive is its first rappel in overhang, generally we will find it dry so it would be great to catch it after generous rains.

Hydrology:

Access: (machine translated)
Take the N420 to Salvacañete. Continue until kilometer 519.5 and turn left to Hoya del Peral. After 100m there is a track to the right. Park the return car. We continue to the village and park the second car shortly before entering, next to a warehouse (left).

Approach: (machine translated)
Approach to Peral I and II ravines
By the track that goes to the SE we cross the stream of Peral I, we continue 400m until a turn to the left of the track and we continue straight by the field to go to the next stream.

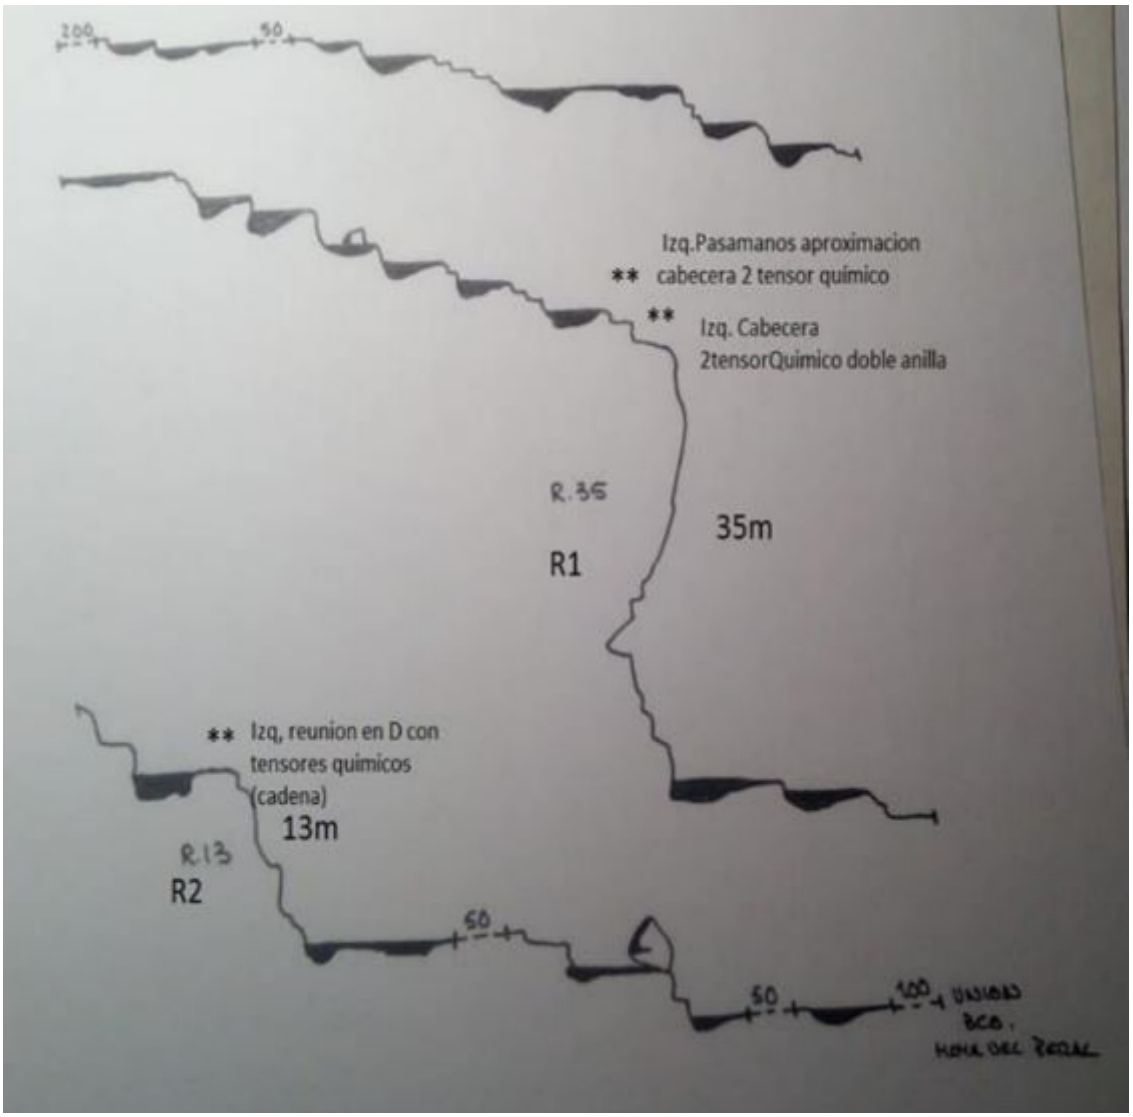

Tour: (machine translated)
See mole

Return: (machine translated)
After the second rappel we walk and continue to Peral I (See topo).
