Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 2 (2)	**Info:** ★ 0 ()	**Belay:** ★ 2 (1)

Specialities:

Gear:

Summary: (machine translated)
Dry canyon except after rains, a simple and short option to practice abseiling. Avoid central hours in summer because it is south face and it is very hot.

Hydrology:

Access: (machine translated)
On the N260 between Boltaña and Fiscal. After passing the tunnels we have on the right the ravine at the height of pk 450. Right there we have room on the left to park. If we can not park further on, we pass a curve to the right and then a small left turn with a track on our right and a few meters ahead parking area on the left.

Approach: (machine translated)
We will take the track on the right for about 30 minutes until we cross the riverbed, which is generally dry.

Tour: (machine translated)
Almost all rappels are single-point, we will have to make sure they are in good condition or install in natural ones

Return: (machine translated)
We will follow the riverbed to the road

Coordinates:
Canyon Start 42.4722 0.0214
Canyon End 42.4687 0.0201
Unknown Parking 42.4671 0.0136

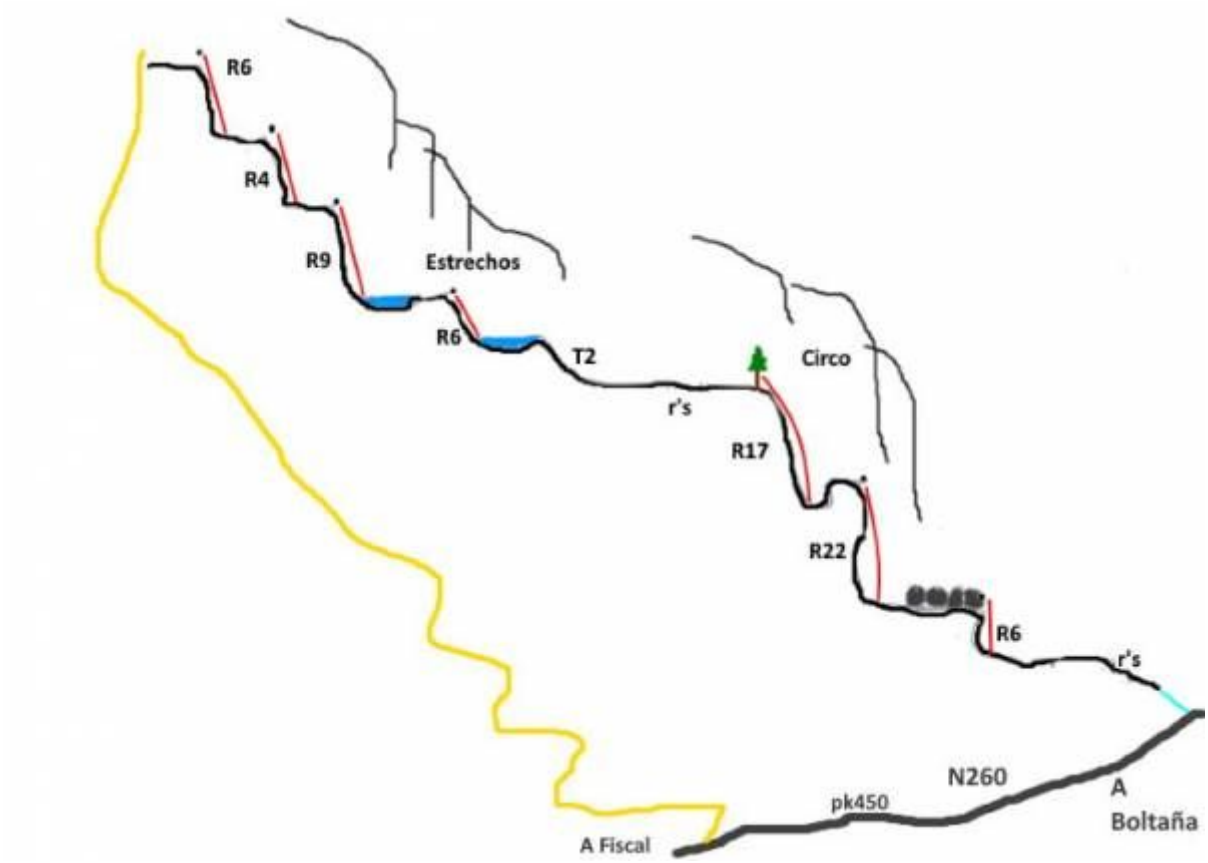

Reports:
