We descended the lower part of the chapel. There were a few really nice rappelling spots. The rock formation is truly beautiful. It was dry, with dried-up pools, one of which you absolutely have to swim through. We were hit by falling rocks but were unharmed. The approach and exit are accessible by vehicles with good ground clearance. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Kakavos Fait la partie basse depuis la chapelle. Qq très jolis rappels. L'encaissement est vraiment joli. Sec avec des vasques croupies dont une ou la nage est obligatoire. On a subit une chute de grosses pierres sans dommages. La navette est réalisable avec des véhicules avec une bonne garde au sol .
