Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Also known as Saavedra, multiple rappels in natural and a quite dressed riverbed. We will be able to complete it with its lower part

Hydrology:

Access: (machine translated)
Bcos area Tamadaba/ElRisco
We have to place ourselves in the NW part of the island, in the Natural Park of Tamadaba.
Guayedra and Acedera/Acedera Inf Banks
In the p.k. 7 of the GC216 we have the detour to the recreational area and the camping area of Llanos de Mimbre, after 100m there is a left curve with a track on the right that is forbidden. Here we will leave the access vehicle. The vehicle of return, previously, we will leave it in the GC200 between El Risco and Agaete. In the p.k. 5,8 we have the closed curve over the ravine, next to the quarry, and a few meters later a parking area on the right.

Approach: (machine translated)
We will follow this track for about 200m until we find the Saavedra riverbed, from here we will go north following its course until we reach the vertical

Tour: (machine translated)
See mole

Return: (machine translated)
We will follow the riverbed up to the Lomo de la Gamona, here we can descend the Lomo on foot or follow the riverbed and do the Acedera Inferior.
