<b>Specialities:</b>		
<b>Gear:</b> Ropes: 2x35m		
<b>Summary:</b> (machine translated) Rappel canyon. Ascent is usually continued in the Hühnerbach.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Bad Tölz via Lenggries to the Sylvensteinsee. There turn left and 5.6 km on the B 307 in the direction of Achensee. Immediately after the road bridge over the Walchen (Achenbach) park the vehicle on the right. Alternatively, access from Achensee on the B 181 in the direction of Lenggries (17.4 km from Camping Achensee).		
<b>Approach:</b> (machine translated) From the parking lot take the forest road that runs in a westerly direction towards the Hühnerbach. Then high above the Hühnerbach in a southerly direction.where on the right a grassy slope leads down to the stream (a little over 900 m above sea level), is the exit. For the entry, continue on the forest road for about 10 minutes until you reach a fork in the road. Here you stay on the right and look for the path a few meters further on, which leads to the stream on the right.		
<b>Tour:</b> (machine translated) A total of 8 rappel, a narrow passage towards the exit of the tour and idR much wood in the stream. At the 28m rappel there is alternatively on the right an approx. 35m rappelmöglichkeit.		
<b>Return:</b> (machine translated) Turn right onto the dirt road, which is hardly recognizable as such anymore and meets the access path. On this back to the car. Alternatively, continue in the Hühnerbach.

## Reports:

2024-10-13 | Christian Haas | ★★★★★ | 📖★★★★ | 🚧★★★★ | 🌊 High | 🍏 Completed

Water level increased after rain in the last few days, but still manageable. Fuses all in good condition. Great as always! (machine translated)

2024-07-14 | Manfred Reg | ★★★★★ | 📖★★★★ | 🚧★★★★ | 🌊 Normal | 🍏 Completed

All anchorages have been reset, double with chain and even numbered... Top (machine translated)

2024-06-14 | System User | 📖 | 🚧 | 🌊 Normal | 🍏 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Pitzbach More snow on the top of the mountain than we expected in middle of the June. The water was clear but very cold. Canyon is easy, nice, with some jumps, and nice abseiling. Don't be surprised by stuck trees and stumps in the canyon. On some of them there are already created jams (stairs) for easier abseiling - thank you for that! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22166/observations.html>)

2024-04-28 | Max | ★★★★★ | 📖★★★★ | 🚧★★ | 🌊 Crazy | 🍏 Completed

Water level enormously high due to melting snow. We got out before the narrow section at the exit of the canyon. Very unpleasant return flow - see 2 picture. (machine translated)

2024-04-06 | Montie | ★★★★★ | 📖 | 🚧★★ | 🌊 High | 🍏 Completed

First pool is getting deeper again, can be jumped from the middle. Slide may be possible, the water level was too high to try it out. Not yet deep enough to jump from the top again. Second jump doable with bent knees. Some trees in the way after the winter. Anchor on the high rappel was loose, tightened it again. Other anchors are all fine. Rope at the tree-block is gone, new one should be installed. Downclimbing with a rope is easier and almost safer than rappelling here. Final jump is deep enough to jump.
