Summary: (machine translated) Rappel canyon as a side approach to the Maglia (for the descent in the Maglia, see the description there - from the sinter slide).		
Hydrology:		
Access: (machine translated) From the Ventimiglia highway exit, drive up the Roya valley to Breil sur Roya. At the exit of the long village, turn left onto the N 2204 towards Sospel. After 2 km, a small road branches off to the right up the orographic right-hand slope of the Maglia. After a tunnel, you reach the bridge over the Morghe with limited parking facilities.		
Approach: (machine translated) At the bridge, turn right directly down into the stream		
Tour: (machine translated) A sequence of rappels of varying lengths down to the Maglia, which is reached before the grotto. The high rappel has now been drilled a little more rope-friendly. First rappel 20m to the belay already visible from above just before the short slide towards the edge. Here set up a rope traverse over 4 anchors to the hanging belay on the right. Then rappel 60m from the hanging belay into the pool. It is very difficult to reach this belay directly from above. On the last rappel into the Maglia, you can choose a less delicate rappel option on the right if the Maglia is full of water. Now go through the grotto and path up to the right at the signpost to the access road. You can also continue along the maglia, but you should then park a second vehicle at the bottom of the Roya valley. Or you can park the one available vehicle at the top of the Maglia parking lot, then walk down the road to the entry to the Morghe and after the Maglia take the mule path on the orographic left side back up to the car (keep left at the fork in the path). It is crucial to check the water level of the Maglia beforehand, otherwise you could be in mortal danger in its whirlpools up to the grotto. However, the danger should no longer exist after the gravel has been removed by the mudflow (2020).		
Return: (machine translated) About 100 m after the grotto in the Maglia, get out on the right at the marked emergency exit, up to the road and right up to the vehicle (see also "Route description!").

Automatisch importiert von Descente-Canyon.com für Canyon Morghé Toujours aussi magnifique. Le sentier pour remonter rive gauche est toujours affiché fermé, nous n'avons pas tenté. Fait en 3h30 à 3 jusqu'à la sortie de la maglia. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2236/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Morghé Ras. Première fois dans la Maglia après l'inondation du 2019. Je pensais que la situation était pire, mais en fait, les marmittes commencent à se vider. Quelques saut possible et cadre toujours magnifique.
