Specialities:

Gear:

Summary: (machine translated)
Short canyon to combine with Gouaux. Only 3 rappels and very short access and return.

Hydrology:

Access: (machine translated)
Access Gouaux and Juzet
We must reach Bagnères de Luchon from the French side by the D125 or from Spain by the Portillon from Bossost by the N141.
Location Gouaux and Juzet
From Bagnères de Luchon northbound on the D125, at the exit we have the detour to the right to Juzet (Cascade) on the D46. We park in the village as close as possible to the stream, the Chemin de la Cascade with its parking would be the ideal place but it is usually very busy.
With the access car we follow the D46 to Sode, in a left curve we have room on the right to park.

Approach: (machine translated)
We take the trail that goes towards the creek.

Tour: (machine translated)
Three waterfalls and little else. Beautiful surroundings and access

Return: (machine translated)
Direct to the people

Automatisch importiert von Descente-Canyon.com für Canyon Juzet DC- La primera instalación es a un árbol con un cordino solidarizado con un maillon y un mosquetón, el maillon está muy oxidado e incrustado en el árbol, y el mosquetón no tiene seguro, por lo que podría llegar a colarse el nudo de atasque o abrirse. Mejor a cambiar a dos maillones o bajar en doble.Ojo! La segunda reunión es algo difícil de ver, está muy a la derecha orográfica en una roca algo escondida.En la tercera reunión, hay dos anclajes a la derecha orográfica, que es un rapel de unos 5 metros, que llevan a un fracciónamiento colgado en la pared. Mejor utilizarlo ya que facilita mucho la recuperación y evita totalmente el roce de la cuerda. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22551/observations.html)
