**Hydrology:**

**Access:**

**Approach:**

Reach the beginning of the Val Vertova, park at the GAV refuge if it's open, or continue 300 meters to the parking lot near the barrier. Retrace your steps and, after the valley circle, take the paved road on the left. After a few minutes, take trail 529. At a crossroads, continue straight until another trail branches off to the right (blue marking on the map) and descends rapidly towards the stream bed.

**Tour:**

1 natural abseil on the right bank or remote belay on a central plant slightly set back 6 m. Section with toboggan and beautiful pools. 2 natural hourglass abseil armed with cord and quick link, right bank 4 m. 3 MC start 5 m + 13 m abseil all (right bank) into a hanging pool, relay finish on the left bank and 9 m abseil. Final meander with simple downclimbs. Short but nice gorge, always with water. All belays and MC armed with double size 8 bolts, plate and link

**Return:**

After a nice meander, the difficulties end and before a bridge, you exit onto the right bank and reach the cemented road you came from.

**Coordinates:**

Parking Entry and Exit [45.8149 9.8169](#)
