Automatisch importiert von Descente-Canyon.com für Canyon Cassiès 35° Extérieur Canyon sympathique, on a esquivé la première main courante et son relais suspendu d'accès tout autant suspendu en relayant au début de celle-ci, ça tire bien d'en bas (à tester par le leader).On n'a pas osé sauter le seul saut en raison d'une eau plutôt trouble.Une grosse pierre est tombée de la falaise pendant qu'on se deséquipés en face du chemin de retour, elle a embarqué une grosse branche au sol avant de s'exploser a 3m de l'emplacement où on était (avant de filer en courant), faites gaffes à cet endroit, on a eu chaud.Dans la classique N du Vignemale la vieille ça aura été le thème du week-end les cailloux qui nous canardent...
