Country: France **Region:** Auvergne-Rhône-Alpes **Subregion:** Haute-Savoie **Town:** Doussard		
Difficulty: difficult	**Grading:** v5 a3 IV	**Total time:** 3h30
Approachtime: 50min	**Tourtime:** 2h30	**Returntime:** 10min
Altitude entry: 950m	**Altitude exit:** 730m	**Delta Altitude:** 220m
Canyon length: 300m	**Highest rapell:** 41m	**Amount rapells:** 11
Transport: Car optional	**Rock type:**	**Drainage area:** km²
Season:	**Orientation:** East	**Best Time:**
Rating: ☆ 3.5 (3)	**Info:** ★ 2 (1)	**Belay:** ★ 3 (1)

Specialities:

Gear:
Ropes: 2x45m

Summary: (machine translated)
Rappel canyon, attractive, also because of the views

Hydrology:

Access: (machine translated)
From Annecy on the N 508 along the southwest shore of the lake of the same name via Duingt to the south end of the lake at Bout-du-Lac (17 km from Annecy). 2 km further on (i.e. after 19 km from Annecy), the D 909 branches off to the left in a northerly direction to lead to Talloires on the eastern shore of the lake.
However, we turn south in the exact opposite direction, then drive through Doussard in an easterly direction and continue in a southeasterly direction to Saury (about 3.5 km from N 508). Here we park the car near the bridge.

A half-hour (16.5 km) transfer is also possible, see
https://www.google.de/maps/dir/Association+Jeunesse+Feu+Vert/45.7758606,6.1878988/@45.7933701,6.1729808,13.56z/
Then it's about a 30 min walk to the entry.

Approach: (machine translated)
From the bridge we take the tarred road uphill in a southerly direction for a few meters, but then immediately turn right onto a dirt road that leads uphill on the left past a house at the edge of the forest. We then follow the subsequent footpath over a footbridge (below the mine) in a northerly direction and reach a wide road. Continue uphill on this in switchbacks until we approach the canyon in a southwesterly direction. Where the road (at about 970 m above sea level) describes a bend to the right (on the left below the mast of a power line), a path leads southward steeply down into the streambed.

Tour: (machine translated)
Attractive tour (without running trails) that continuously opens views of the wooded valleys.
Good to combine with Fontaine Fayard, Montmin or Frontenex.

Return: (machine translated)
At the water intake, turn right and follow the serpentine path down to the already known footbridge and then return to the car on the approach path.

Coordinates:
Canyon Start 45.7680 6.1870
Canyon End 45.7660 6.1918
Parking Entry and Exit 45.7651 6.1955
Parking at Entry 45.7758 6.1880

Automatisch importiert von Descente-Canyon.com für Canyon Mine L'équipement en place est parfois hasardeux sans pour autant être rédhibitoire, on retrouve du monopoint, des anneaux, goujons... En tout cas, il est utile de prendre sa clé pour visser et vérifier les amarrages. En tout cas paysage magnifique ! Descente au top ! De la manip, et de l'eau c'était une bonne journée ! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2141/observations.html)

2026-10-11 | System User | |🕮 |⚓ | ≋ Normal | 👍 Completed
Automatisch importiert von Descente-Canyon.com für Canyon Mine Très glissant sinon RAS (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2141/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Mine Filet d'eau correct pour la saison. Les vasques sont propres.Équipement RAS, à l'exception d'un point de départ de main courante RD avant la C40 (la broche bouge). (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2141/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Mine Vraiment très peu d’eau. Ça reste joli mais bon on en aimerait plus. Équipement très hétérogène, il y a de tout. Les MC en places ne sont en effet pas utile mais en gros débit tu dois être bien content de les avoir ! Glissant (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2141/observations.html)

2026-08-29 | System User | |🕮 |⚓ | ≋ Normal | 👍 Completed
Automatisch importiert von Descente-Canyon.com für Canyon Mine Petit débit correct.Est-ce vraiment utile ces mains courantes qui décolorent tout l'été en plein soleil.....L'un des deux points de main courante d'accès à la C40 mériterait d'être changé, ça bouge ... Et plus globalement ce pied de cascade mérite une mise à jour (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2141/observations.html)

2026-08-18 | System User | |🕮 |⚓ | ≋ Low | 👍 Completed
Automatisch importiert von Descente-Canyon.com für Canyon Mine Très faible débit a cette période. Canyon très sauvage avec de beaux rappels. Équipement RAS mais sol très glissant tout au long de la descente (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2141/observations.html)
