The access for checkpoint is quick and recommended. Possible shortcut from there to the approach.

Automatisch importiert von Descente-Canyon.com für Canyon Tiarno Underrated canyon. A nice but short estrecho, a lovely cave with in-the-water rappels or guided rappels, and quick in and out. Good for an afternoon of fun with beginners. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2528/observations.html>)

Very short but carries abundant water (especially now after rain) that makes it rather sporty, manageable though, thanks to being over-equipped. Headlamp needed for the cave.

Approach from the bottom on foot, 100m before the bridge convenient path that takes you to the creek (I do not recommend descent in the intermediate point present on this site) In the first part beautiful pools of which two found diveable, then horizontal but never ugly and finally the two descents into the beautiful cave (the first dive after verification) Short but highly recommend. https://youtu.be/64PZ_ZhrggM (machine translated)

Everything perfectly installed. Some abseiling places, between the bridge and the grotto some walking distance. Last part 5 stars, first part 4, middle 2 stars. (machine translated)
