<b>Summary:</b> (machine translated) Short rappel and walk canyon with grotto		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Riva di Garda, on the north shore of Lake Garda, take the SS 240 towards Storo, Lake Idro. Passing Lake Ledro, turn right at Tiarno di Sotta and park a car at the road junction by the stream (about 20 km from Riva). With the second car - or on foot - take the narrow road along the orographic left slope of Massanglia up into Val di Croina (trail 415). After about 1.5 km the road crosses the stream. Beyond the bridge parking possibility.		
<b>Approach:</b> (machine translated) On the road about 100 m back and on mule trail right down to the creek . Alternatively, rope into the stream at the bridge.		
<b>Tour:</b> (machine translated) Only 3 to 4 rappel, one of them from the grotto through the beam into the open. Initially from the bridge nice, then gehatsche and a few small slides and downclimb. Final through the grotto. Before the grotto emergency exit before open character.		
<b>Return:</b> (machine translated) After the grotto, go out to the right and down the path to the car.

Beautiful canyon, everything ok. We walked up on foot, 15 min. Colsd water.

Great short canyon, many fixed ropes, good stands, headlamp for the grotto at the end important because a rappel goes into the dark. The beginning is picturesque and mystical but a lot of walking. We rappelled once from the barrage (tree) and from the bridge as a little "treat". Here is the link to the Viedo/Reel

Short evening run, recommended for the grotto and scenic views alone. Very well developed, headlamp in the cave very helpful as almost completely dark, but also worked with the flashlight from the cell phone (machine translated)

The access for checkpoint is quick and recommended. Possible shortcut from there to the approach.

Automatisch importiert von Descente-Canyon.com für Canyon Tiarno Underrated canyon. A nice but short estrecho, a lovely cave with in-the-water rappels or guided rappels, and quick in and out. Good for an afternoon of fun with beginners. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2528/observations.html>)

Very short but carries abundant water (especially now after rain) that makes it rather sporty, manageable though, thanks to being over-equipped. Headlamp needed for the cave.

Approach from the bottom on foot, 100m before the bridge convenient path that takes you to the creek (I do not recommend descent in the intermediate point present on this site) In the first part beautiful pools of which two found diveable, then horizontal but never ugly and finally the two descents into the beautiful cave (the first dive after verification) Short but highly recommend. Everything perfectly installed. Some abseiling places, between the bridge and the grotto some walking distance. Last part 5 stars, first part 4, middle 2 stars. (machine translated)
