Rating: ☆ 3.7 (4)	**Info:** ★ 2 (1)	**Belay:** ★ 3 (1)

Specialities:

Gear:
Ropes: 1x20m

Summary: (machine translated)
Commercially managed deeply incised hiking, jumping and swim canyons; information and guided tours at nevidio.canyoning@gmail.com www.nevidio-canyoning.com; check water level at entry (water level should be below 7 at the water level gauge!; large catchment area; Grabovica tributary also accessible; many slippery walking and downclimb passages; several narrow passages and downclimbs; no emergency exit; cold water; from the halfway point the more beautiful part of the canyon begins (similar character to Strubklamm near Salzburg).

Hydrology:

Access: (machine translated)
From Šavnik take the main road towards Kpaj/ Žabljak. Then turn left at the signs towards the Jatak, Nevidio restaurant and follow the narrow mountain road uphill. After the restaurant, the road descends. Follow a few serpentine bends until you reach the large gravel parking place on the left (sign Kanjon Nevedio) (parking lot for campers only).

Approach: (machine translated)
At the signposted Nevidio parking lot, follow the path over the first wooden bridge from the left tributary Grabovica (vertical canyoning tour). After a short while, there is a second wooden bridge over the Nevidio. Then follow the path on the right-hand side of the stream until you reach the plaque with the historic first ascent in 1965. This is also the entry point to the canyon, where the guide charges a local fee for commercially guided tours.

Tour: (machine translated)
The canyon begins with a longer walking passage interrupted by smaller downclimbs and pools. After a while, you come to a narrow section (swimming channel) of about 100m with clamping blocks. Here you first downclimb skillfully to the right and then swim. Shortly after the swimming passage, there is a blockage with a way through between the rocks + a small jump. Then comes a small narrow section with swimming passages, followed by a walking and climbing section. At the next large blockage, you search in vain for an anchor. Here you have to skillfully downclimb over the remains of the bridge and boulders. From here, the canyon becomes more interesting. Several steps with possible jumps into beautiful deep pools follow without much distance. The 20m ropes can normally be dispensed with. After the last 5m possible jump into large pools, the canyon opens up. The tour exits at approx. 740m (EXIT on the rock face).

Return: (machine translated)
At the point where you can read "Exit" on the rock face, climb out of the canyon on the right at approx. 740m. Follow the marked path steeply upwards through the forest. After some time/meters you come to an open area with a beautiful view of the mountains and a deep view into the canyon. From here, the path is not far from the asphalt road, which you follow until just before the bridge. Before the road bridge, turn left down to the stream. Now follow the access path next to the stream back to the parking entry.

Coordinates:
Canyon Start 42.9883 19.0679
Canyon End 42.9810 19.0461

Automatisch importiert von Descente-Canyon.com für Canyon Nevidio Très belle gorge très agréable à parcourir. Plein de saut, aucun difficile. Si on est à l'aise dans la progression alors la corde et le baudrier sont inutiles. 1h30 à deux sans courir et 35min de retour. Il faut partir tôt sous peine de croiser des guides qui vous feront payer 10 euros par personne juste pour être dans l'eau. On a démarré à 9h et c'était déjà presque trop tard. Tout est payant dans cette zone. Mon fils de 2 ans a du payer 1 euro pour accéder au parc qui n'a aucun intérêt au niveau des guides de canyon, tout est bon pour faire du fric. Il y avait plusieurs dizaines de personnes à 10h pour faire le canyon (100 euros par tête...). Nous nous sommes garés au pont et un chemin accède au début du canyon. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22180/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Nevidio DC selon les critères, mais échelles en dessous de la marque jaune, ça coule assez quand même. Environ 3h sans trainer, 50min de retour. Équipement... variable, quelques monopoints de 8 vertical water tout neufs (plutôt optimisés gros débit, on suppose), pour le reste, pas trop le choix que de sauter sans sonder sur les petits obstacles. Tout passe sans souci avec ce débit. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22180/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Nevidio Un magnifique canyon étroit. Eau limpide, mais froide. Aucune corde n'était nécessaire ; toutes les ressauts nécessitant une corde étaient préparées avec une corde ou une main courante. Remarque : la sortie est à 42.98265, 19.05669, et non aux coordonnées incorrectes indiquées sur canyon.org. Un bon sentier mène à la route en 30 minutes. Nous avons parcouru le canyon en 2 heures et 15 minutes à deux. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22180/observations.html)

2025-10-09 | Jo Haegeman | ☆ ☆ ☆ ☆ ☆ |🕮 ★ |⚓ ★ ★ ★ | 〰 Normal | 👍 Completed
A beautiful, narrow canyon. Super clear, but cold water. No rope was needed; all short descents requiring a rope were prepped with a rope or handline. Note: the exit is at 42.98265, 19.05669, not the incorrect coordinates listed on canyon.org. A good path takes you to the road in 30 minutes. We completed the canyon itself in 2 hours and 15 minutes with two people.

Automatisch importiert von Descente-Canyon.com für Canyon Nevidio Un gars au départ du canyon sur le parking a tenté de nous prendre 25€ par personne pour descendre le canyon il ne voulais que du cash.Nous avons refusé et nous nous sommes garé en aval , après la fin du canyon en rejoignant la route. C'était finalement gratuit nous n'avons pas été embêté par là.Toutes les vasques sautait, aucun matériel technique nécessaire, tout est contournable car fort pratiqué par les guides locaux. En septembre, nous avons cependant eu la chance de ne croisé personne. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22180/observations.html)
