Summary: (machine translated)
Large and deep canyon with access via an easy via ferrata. Beautiful beginning, then unfortunately only more hiking tour.

Hydrology:

Access: (machine translated)
Freeway A23 to exit Pontebba then on the SS13 briefly direction Pontebba. After crossing the Fella and the Rio degli Uccelli, turn right under the highway. Follow this road until you reach a large parking area next to the gravel bed of the Rio degli Uccelli.

Approach: (machine translated)
From the parking lot head SW into the forest on a cross-country path, through a gate and between two weekend houses onto a road. At the next crossroads keep right and after the last house turn right onto path 521. Follow the path until it reaches the streambed of Rio degli Uccelli after long crossings, some of which are secured. Not all exposed passages are secured - do not walk in wet conditions.

Tour: (machine translated)
* 15m rappel from tree right\n * 25m rappel from 8mm anchor right above\n * 100m hiking and small steps for downclimbing/jumping\n * 12m rappel from 2 normal anchors left behind\n * 2 steps climb around right\n * 8m rappel from anchor left \nFrom here only more hiking and downclimbing between large boulders. The gorge ends at a huge boulder dam.

Return: (machine translated)
Pass a climbing garden and return to the parking lot.

The approach is not for the faint of heart. Partly it is well secured but every now and then you are in the middle of the fall terrain without insurance. Due to various landslides, finding the way is also not easy. (machine translated)
