Summary:
Fairly short and well-encased canyon

Hydrology:

Access:

Approach:
In the village of Premia, turn left onto the road leading to Albogno; from the village, follow the path starting in front of the church leading to Madonna dell'Oro (50 min); continue climbing along the path to the left of the chapel leading to Almaio (1 h). From there, there are two options: either follow the 1200m contour line to reach the ravine at the start of C25 (15 min), or descend via the path that leads to the top of C40. As this canyon is rarely visited, access beyond Almaio is not obvious.

Tour:
This fairly short, well-encased canyon is not recommended due to the significant risk of rockfalls.

Return:
Follow the stream to reach the car if you decided to set up a shuttle (5 min), otherwise descend the valley to Premia (25 min).
