| **Country:** Türkiye / Turkey **Region:** Antalya **Subregion:** Kaş / Kas **Town:** Dereköy | | |
| **Difficulty:** not as difficult | **Grading:** v2 a3 II | **Total time:** 5h12 |
| **Approachtime:** 1h10 | **Tourtime:** 4h | **Returntime:** 2min |
| **Altitude entry:** 535m | **Altitude exit:** 345m | **Delta Altitude:** 190m |
| **Canyon length:** 8000m | **Highest rapell:** 4m | **Amount rapells:** 1 |
| **Transport:** Car required | **Rock type:** limestone | **Drainage area:** km² |
| **Season:** | **Orientation:** Southeast | **Best Time:** |
| **Rating:** ☆ 3 (4) | **Info:** ★ 3 (1) | **Belay:** ★ 2.5 (2) |

**Specialities:**

**Gear:**
Ropes: 1x20m

**Summary:** (machine translated)
River walk that becomes increasingly attractive as it progresses and opens up some possible jumps.

**Hydrology:**

**Access:** (machine translated)
From Kas we take the state road 400 in the direction of Antalya. After about 7 km, shortly before reaching the village of Agilli, we take a sharp left turn off the 400 towards Orttakuyu and the ancient town of Phellos (brown sign). After about 1 km, a small tarred road turns off to the right in a northerly direction (towards Pinarbasi). We pass through Pinarbasi and reach the heights about 7 km after turning off the 400. Now it's another 3 km downhill and we drive through Dereköy. 50 m after the mosque on the right-hand side we come to the bridge over the Hacioglan. We park the lower vehicle here.
We continue with the second vehicle on the orographic left bank of the Hacioglan and reach Ugrar 6 km after Dereköy. We keep left here and turn left a little further north in the direction of Sinneli. We drive through a small settlement (Cataoluk) on the western edge, turn left before Sinneli and the new road takes us up the northern slope high above the river Hacioglan. After a good 8 kilometers, we turn left off the new road, reach the scattered settlement of the same name (around 25 km from Dereköy) and drive down to the river. We park the second car at the bridge.

**Approach:** (machine translated)
We now follow the track along the orographic right bank of the stream downhill in an easterly direction. Where the track turns away from the stream and begins to climb, we take the forest path to the left and always follow the stream. Several crossings of the stream follow, the path becomes a goat track and finally gets lost. Then we come to the first narrow section between solid rock and a longer swim. Here begins the actual canyoning route.

**Tour:** (machine translated)
Also a lot of walking after the first swim, but in the last third attractive ambience with some possible jumps.

**Return:** (machine translated)
After crossing the final rock bar, follow the stream to the road bridge. About 200m before the bridge you can already go out to the right on a dirt road.

**Coordinates:**
Canyon Start 36.2805 29.6466
Waypoint 36.2834 29.6247
Canyon End 36.2696 29.6590
Parking at Entry 36.2861 29.5863
Parking at Exit 36.2691 29.6583
Parking at Entry 36.2817 29.6046

Automatisch importiert von Descente-Canyon.com für Canyon Hacioğlan Parking amont: 36.282908 29.606281Marcher 1km sur la piste forestière puis un sentier longe le cours d'eauSeul le dernier km présente un intérêt. Il faudrait trouver un sentier sur les berges ou bien le remonter (celà doit être possible).Cela évite également 28km de navette.Beaucoup de sauts dans une eau translucide. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22489/observations.html)

Unfortunately very long walking passages for a small canyon. Although in a beautiful setting, it is still more of a hiking canyon with a few possible jumps. We didn't need a rope once, but jumped everything, but still take a rope with you, because some jumps would not be possible at lower water levels. I added another park point closer to the entry point, which saves you about 2km of walking and makes it relatively easy to drive down the gravel road. (machine translated)
