Transport:	**Rock type:**	**Drainage area:** km²
Season: March - November	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
A first part of small rappels and abseilings/toboggans with stalactite formations and a very dressed riverbed. The second part is narrower and technical without being a difficult canyon, but it will make us enjoy a good time. Caution in spring or after rains because it can load a lot.

Hydrology:

Access: (machine translated)
Location Seceda
We must arrive at Folgoso do Courel.
Situation Seceda
From here we will continue towards Seoane do Courel by LU-651 and after 11 km, we turn left by LU-P-1306 to Seceda where we park.

Approach: (machine translated)
Access bcos Forcas do Fial and Veiga Darca
On the way to the church, just before the church, there is a track/path that first ascends and then descends towards the river. Take the second fork to the right and continue downhill along this path for about 40 minutes until you reach an old bridge.

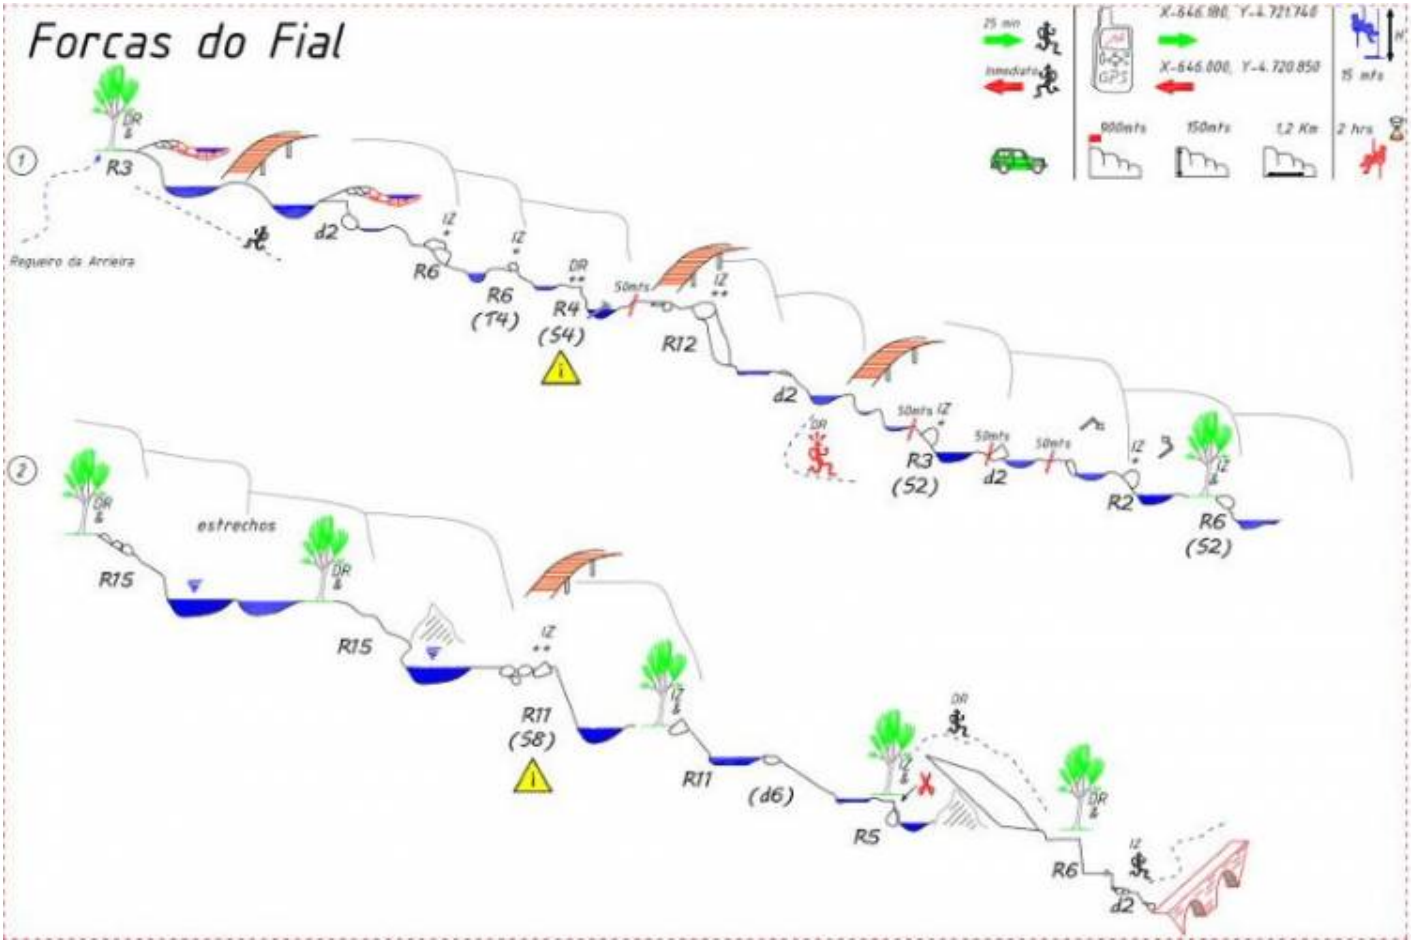

Tour: (machine translated)
A first part of small rappels and abseilings/toboggans with stalactite formations and a very dressed riverbed. The second part is narrower and technical without being a difficult canyon, but it will make us enjoy a good time. Caution in spring or after rains because it can load a lot.

Return: (machine translated)
We arrive at the road bridge, we just have to follow it to the village.
