Summary: (machine translated)
Canyon with great views of the coast during the descent, it is not of great interest unless we catch it with good flow. Some long waterfalls, but quite clogged.
There has been a felling of trees in the summer of 2025 on the left side of the canyon. There are branches and trunks in the last 6 rappels and in the pools, extreme caution.

Hydrology:

Access: (machine translated)
Along the coast, going down the road from Baiona to A Guarda.
We will pass through As Mariñas and arrive at Mougás-Porto. We continue along our road, cross the bridge over the river Mougás (time to evaluate the flow) and continue until we leave the sign of the p.k. 29 of the PO-552, after 100m we turn left to As Pozas and the Forest House. We will not leave the main road all the way up towards As Pozas. When we reach a small viewpoint, with a right turn, a track to the left leads to Pozas de Mougás, we go along it until we reach a small bridge over the river (1.3 km). We park here the return car or if we only have one vehicle.
With the access car we return to the road and continue climbing another 2km to the recreational area, where we park.

Approach: (machine translated)
With a single vehicle we will have to go up the road to the recreational area.
In both options from the recreational area the access is immediate, we continue walking north to the obvious riverbed.

Tour: (machine translated)
A short stretch up to the balcony, from there on it is a succession of rappels, more or less cambered, which gain in interest with flow.

Return: (machine translated)
When we reached the runway, we left
