Country: Italia / Italy    Region: Trentino-Alto Adige    Subregion: Trento / Provincia autonoma di Trento    Town: Storo		
Difficulty: a little difficult	Grading: v4 a4 III	Total time: 2h20
Approachtime: 0min	Tourtime: 2h15	Returntime: 5min
Altitude entry: 540m	Altitude exit: 400m	Delta Altitude: 140m
Canyon length: 500m	Highest rapell: 45m	Amount rapells: 7
Transport: Car optional	Rock type: limestone	drainage area: 45.50km²
Season:	Orientation: Southwest	Best Time:
Rating: ★ 4 (13)	Info: ★ 2.7 (11)	Belay: ★ 2.8 (11)
Specialities:		
Gear: Ropes: 2x50m/1x20m		
Summary: (machine translated) Beautiful lime canyon with clean water; short impressive canyon with 45m final rappel; several grottoes and deep pools; well combinable with Rio Val.		
Hydrology: Erster Teil mit Wasser, aber entsprechend ausgestattet. Für die zweite hängt alles von der Wasserfassung am Damm ab. Korrektes Niveau im Sommer.		
Access: (machine translated) From Torbole --> Riva --> at traffic circle ri. Storno --> road ri. Albola mountain pass --> through small village --> past the lake (Lagodi Ledro) --> through village --> always straight ahead --> road crosses the stream (Palvico) --> entry r. at gravel turnout Km 47.5 --> to chute 2. Car over the curvy road down until in a left bend a stone with Km 50 appears --> here r. narrow road back to the picnic area (parking lot)--> here you can see after a short walking passages the last 50m waterfall and the actual amount of water. If you don't have a 2nd car there is the possibility to take a very steep path (orographically right) back to the upper parking lot after the tour on foot.		
Approach: (machine translated) Enter the creek right next to the gravel turnout at km 47.5.  If you choose the alternative parking lot and park in the hairpin bend, you descend briefly to the dam and enter directly at the weir.		
Tour: (machine translated) The tour begins with walking passages and climbing over large boulders. At a 3m step you will find a fixed rope for downclimbing. This is followed by 2 swimming passages with small slides in a narrowing canyon. Arrived at the grotto, the 10m step can be rappelled or slid. After the big pool in the grotto the canyon opens. Here you have the possibility to bypass the next 10m step via fixed ropes (right) up to an 8m jump (attention water depth!). After the jump (rappel) comes the weir with possible emergency exit.  This is the beginning of the lower part (see alternative canyon start).  On the left side of the wall is the belaystation for the 20m steps. Here you mostly rappel 15m and slide 5m into the deep pool. In the grotto, swim to the next 25m rappel (left or right). Enclosed by high rock walls follows a 6m jump into a large pool. Then there is a narrow 5 m gap which can be rappelled or climbed down. Now you are at the final waterfall (45m). Here you can rappel to the left outside the water or to the right in the water to the large water basin (a 60m rope is recommended for pulling off). After a short walking passages in the shallow streambed, at the end of the tour you can take a running jump of 6m from the dam wall into the last pool.		

**Return:** (machine translated)

Get off at the artificial step on the right and follow the path back to the metal bridge. Cross it and go back to the parking lot (shuttle car).

## Reports:

2025-05-02 | Rick Paapy | ★★★★★ | 📖★★★★ | 🪚★★★★ | 🌊 Normal | 🟢 Completed

All good, good water flow, but all over so quickly (machine translated)

2025-04-19 | Clarissa Linder | ★★★★★ | 📖★★★★ | 🪚★★★★ | 🌊 High | 🟢 Completed

Very high water level (see photo attached). We only went as far as the emergency exit at the weir, the risk in the narrow part was too high for two of us. But until then it was quite possible! (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Palvico All equipment OK, fractioned last descent possible (I didn't measure rope lengths) (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2607/observations.html>)

2024-08-25 | Gregor Bernsteiner | ★★★★★ | 📖★★★★ | 🪚★★★★ | 🌊 Normal | 🟢 Completed

Very nice All pools full of gravel, hardly any jumps possible, Top protection (chain anchors, rope traverses). The first commercial providers are in the canyon from 08:30 am (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Palvico Pas du tout été déçu par le torrente Palvico dont j'avais beaucoup entendu parler et qui m'avait été recommandé par des amis l'ayant descendu à plusieurs reprises...Les deux encaissements sont de toutes beauté, l'eau ce jour était « fraîche » et le débit relativement conséquent...Équipement pléthorique vu que c'est l'usine à BE locaux...On a réussi à s'intercaler entre deux groupes afin de ne pas trop attendre au relais de la C50 finale qui se termine sur la place municipale des baigneurs locaux / étrangers...La note est amplement justifiée, petit bémol un peu trop court à mon goût (2h00 à 5 sans se presser). (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2607/observations.html>)

2024-07-31 | Thorsten K. | ★★★★★ | 📖★★★★ | 🪚★★★★ | 🌊 Normal | 🟢 Completed

This time we were in the canyon in the afternoon after doing Rio Val and the different position of the sun made the canyon shine in a new light again!!! If you combine them then get out onto the road at Val instead of following the streambed for a long time. Palvico is a good contrast to Val and you can use the cooling down after the verticality and the exposed stands. (machine translated)

2024-07-29 | Thorsten K. | ★★★★★ | 📖★★★★ | 🪚★★★★ | 🌊 Normal | 🟢 Completed

Nice short tour (1h15min instead of 2h15min). Anchors and rope traverses in good condition. A lot of drilling has been done here but the canyon is also used a lot commercially. The caves are extremely beautiful and at the current water level the 45m waterfall is also easy in the stream. (machine translated)

2024-07-01 | System User | 📖 | 🪚 | 🌊 Normal | 🟢 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Palvico After dam flow decreases a lot. All anchors ok. Lot of them have multiple options. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2607/observations.html>)

2024-06-25 | System User | 📖 | 🪚 | 🌊 Crazy | 🚫 Not done

Automatisch importiert von Descente-Canyon.com für Canyon Palvico Nous sommes allés observer la cascade finall y a trop d'eau 2 gerbes sortent de la cascade Avec ce débit impossible de descendre dans l'actif Nous ne connaissons pas le canyon nous avons choisi de ne pas le parcourir (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2607/observations.html>)

2024-06-07 | Madie Ga | ★★ | 📖★ | 🪚★ | 🌊 Normal | 🟢 Completed

It's a nice canyon but very short, and over rigged, too many ropes left on bolts through the whole canyon which take away the beauty

2024-06-05 | System User | 📖 | 🪚 | 🌊 Normal | 🟢 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Palvico Eq ok, took alternative put in (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2607/observations.html>)
