Country: Österreich / Austria Region: Salzburg Subregion: Bezirk Hallein Town: Golling an der Salzach		
Difficulty: not as difficult	Grading: v3 a2 III	Total time: 2h40
Approachtime: 40min	Tourtime: 1h45	Returntime: 15min
Altitude entry: 680mm	Altitude exit: 550mm	Delta Altitude: 130m
Canyon length: 700m	Highest rapell: 30m	Amount rapells: 7
Transport: on Foot	Rock type: limestone	Intake area:
Season:	Orientation: East	Best Time:
Rating: ★★☆☆☆☆ 3.6 (9)	Info: 📖📖📖 2.8 (4)	Belay: 🪚🪚🪚 2.7 (6)
Specialities: suitable in rainy weather,		
Gear: Ropes: 2x30m		
Summary: (machine translated) Very beautiful open and vertical lime canyon with views into the Bluntau valley; clean cold water; short rappel canyon with a kl. narrow section; several rappel points can be rappelled alternatively outside the water flow. !large catchment area		
Hydrology:		
Access: (machine translated) Coming from the A10 take the exit Golling and drive in the direction of the train station --> before the train station you drive over the tracks and bridge that leads over the Salzach --> immediately after the bridge on the left continue into the Bluntautal --> you follow the road to the bridge after the first large parking lot for hikers (Attention!!! on weekends and holidays the entrance is only allowed until 10am for cars). --> continue over the small wooden bridge and the forest road at walking pace to the Bärenwirt --> park at the Bärenwirt parking lot.		
Approach: (machine translated) From the Bärenwirt follow the forest road over the bridge in the direction of Jochalmen --> after approx. 15 min. you will come to a small border hut --> at the fork in the road turn left in the direction of the waterfall --> after a short while you will cross a stream --> then continue to follow hiking trail 451 up through the forest (also possible via forest road) --> after approx. 10/15 min. you meet the forest road again --> here you take a shortcut over a steep forest road until you are back on the forest road again --> you follow this until the end --> at the point where the forest road ends, it is best to put on the neoprene and harness --> the entry is in the course of the forest road a little further above and is reached via a well-trodden small path next to the canyon (entry via fixed ropes and abseil point on the tree)		

Tour: (machine translated)

The entry into the stream leads over a sling around the tree where you dry rappel about 25m --> arrived in the stream follow three short slides which can also be jumped depending on the water level --> after that you would have a last steep exit possibility on the right before it then goes over an approx. 25m high dry rappel point (with rope traverse) next to the so-called cannon tube in a cavity down --> from the cavity it goes immediately approx. 7m incl. shower over the next mostly very slippery step --> for safety a rope traverse leads to the next chain anchor at the highest dry 30m rappel point in the canyon --> after a few steps there is a narrow point which can be easily passed by a fixed rope traverse --> the next approx. 20m rappel point runs directly in the water and has a small overhang with a sharp edge --> the rappel point is a small overhang with a sharp edge --> the next 20m rappel point is a small overhang with a sharp edge --> the next 20m rappel point is a small overhang with a sharp edge --> the next 20m rappel point is a small overhang with a sharp edge. Overhang with sharp edge --> a shallow pool follows (often felt with gravel)--> a short walking passages and small slide follows before one stands at the last cascade--> if the water level allows it, is rappelled here left approx. 15m into a beautiful cavity, followed by an approx. 10m step into the last pool--> alternatively, this cascade can be dry r. approx. 30m rappel--> then follow the shallow streambed mostly on the left side for about 15min. until you see a small wooden hut next to the streambed--> here rappel left out of the stream.

Return: (machine translated)

From the wooden hut via the forest road back to the Bärenwirt (Attention! many MTB).

Stands in order, fixed rope at the crux now without a sheath. Pools mostly flat. (machine translated)

2023-09-16 | Joey CIA | ★★★★★ | | 📌 📌 📌 | 🌊 Low | 🟢 Completed

Stands all okay. A few fixed ropes belong times exchanged. Super tour! (machine translated)

2023-07-23 | Glitzi | ★★★★★ | 📖 📖 📖 | 📌 📌 📌 | 🌊 Low | 🟢 Completed

All the stands and ropes we have seen are ok. So dry I have not seen the gorge. Sliding is only possible to a certain extent because the gullies are well filled with gravel. As always beautiful! (machine translated)

2023-04-29 | Max H. | ★★★★★ | 📖 📖 📖 | 📌 📌 | 🌊 High | 🟢 Completed

It had rained in the last 24h in Golling 20mm (source <https://bit.ly/3n9vE2T>) thus was "good" water in the stream. At the chute before the gun barrel was a small but unguite roller present, had us 2-3min busy there to get out again but nothing dramatic. What but mMn new is that the gun barrel drilled a hole and now splashes directly on the narrows. This makes the narrows much "more difficult" to cope with high water levels, I would put 2-3 hooks here so that you can cross again above and possibly also change the rope in the narrows. (machine translated)
