The Sermenza Gorge is not really a Canyoning route but more of a river trek practiced by a few rafting schools in Valsesia. Rope is not necessary, there is some diving and the trail is short in an aesthetically beautiful bottleneck, ending in balmuccia under the stone bridge. If you really want to give it a difficulty.... V1A4!...maybe the only thing beware of the dam release on the sermenza and that anyway the creek has a catchment area of more than 100km2 (machine translated)
