Automatisch importiert von Descente-Canyon.com für Canyon Salto Superior Sympathique première partie. Il manque une plaquette au R3.Le couplage sur sangle du R4 mériterait d'être changé ainsi que les maillons rapides. Le R5 noté 3+15 ce décompose en deux Rappel différents. Le 3 mètres peut ce sauté et le 15 à un relais Rg.Le R6 noté 15m fait plutôt 25m et le R7 noté 17m en fait au moins 35m!Attention au crue éclair ! Avec peu de pluie on à vue des canyons de l'île ce chargé vraiment fort! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23262/observations.html)
