Access: (machine translated)
We leave the car for the exit in Campione del Garda. (Alternatively, we can use the lower parking lot of the Brasa canyon). With the second we go from here on the SS45bis north (direction Riva del Garda) and after about 2 km turn left on the SP38 and go up the impressive road to Pieve (Tremosine). High above the lake we go up and then through the Brasa Gorge (there the canyon of the same name descends to Lake Garda). We pass through the center of Pieve and then continue on Viale Europa towards SW. About 400m after the center we turn half-left onto Via Vagne (signposted "Campi Sportivi") and continue on it for another 900m almost to the stream. Here we park our second car.

Approach: (machine translated)
Now we are looking for an access to the nearby stream without disturbing the residents.

Tour: (machine translated)
In the stream we then go down to the break-off edge. Here the first of the total of 6 rappel - largely outside the "beam" waiting for us. First we descend on the orographic left side of the waterfall, then on the orographic right side. Details at http://www.sercantadventures.it/it/valle-di-lesine/info-valle-di-lesine under "DISCESA", where also a contact for more information is offered.

Return: (machine translated)
Arrived on the old Garda shore road we go right to Campione to the lower car, or to the left if you have parked the lower car at the alternative parking.
