Country: España / Spain **Region:** Cataluña / Catalunya **Subregion:** provincia de Tarragona **Town:** Horta de Sant Joan

Difficulty: not as difficult	**Grading:** v2 a3 II	**Total time:** 1h35
Approachtime: 25min	**Tourtime:** 1h	**Returntime:** 10min
Altitude entry: 490m	**Altitude exit:** 425m	**Delta Altitude:** 65m
Canyon length: 750m	**Highest rapell:** 6m	**Amount rapells:** 2
Transport: on Foot	**Rock type:** conglomerate	**Drainage area:** km²
Season:	**Orientation:** Northwest	**Best Time:**
Rating: ☆ 3.2 (3)	**Info:** ★ 0 ()	**Belay:** ★ 3 (1)

Specialities:
§ Regulated, Permit required,

Gear:
Ropes: 1x20m

Summary: (machine translated)
Hiking, swimming and bouncing canyon, also good for children

Hydrology:

Access: (machine translated)
We leave the AP-7 - Autopista del Mediteráneo, Tarragona to Valencia - shortly before reaching the Ebro and take the C-12 northwards to Tortosa (not quite 20 km to the town center). Once in the town, continue north on the C-12 towards Lleida. About 3 km after the town of Xerta (and 14.5 km after Tortosa town center), turn left onto the N-230b towards Gandesa. After another 7.2 km, turn left again onto the T-333 towards Valderrobres. Not quite 14 km after the last junction, we come to a T-junction where the T-334 turns off to the right in a northerly direction towards Horta de Sant Joan.
However, we continue on the T-333 for another 270 m before turning left onto the road heading south towards the mountains. But just 270 m further on, we turn left onto a dirt road towards El Ventador, signposted "Salt de Sotorres et El Ventador". The track leads into the valley of the Riu de Canaleta and up the slope on the other side. 2.2 km after the bridge (and 4.1 km from T-333) - we ignore two dirt tracks on the left - we first come to the ford through the Cubars and a few meters after that to a larger estate. Here we can look down into a large basin with a waterfall and mill under the rock face. We park our car. Cf: * http://www.wikiloc.com/wikiloc/view.do?id=7896376

Approach: (machine translated)
From here we can follow the signposts (including "Salt de Ventador"). We come to a ridge and follow the access down into the Riu. The old access via the beautiful entry waterfall with a 6 m jump is no longer permitted.

Tour: (machine translated)
We can now see the entry waterfall in the basin behind the large pool from below, with the 6m jump it becomes a little difficult. So we jump and walk downwards. We pass several small "Oscuros" and reach the exit of the canyon (which can also be climbed from here) much too early. Cf:
* http://www.descensodebarrancos.com/barrancos/canaletes/topo/mapa.html

Return: (machine translated)
Turn right onto the clear path and follow it back to the car.

Coordinates:
Canyon Start 40.9168 0.3335
Alternative Canyon Start 40.9171 0.3332
Canyon End 40.9190 0.3287
Parking Entry and Exit 40.9229 0.3245
Waypoint 40.9165 0.3335

Automatisch importiert von Descente-Canyon.com für Canyon Canaletes Quelques jolis passages mais aucune continuité. Finalement le plus joli c'est la marche d'approche avec vue sur la cascade interdite et l'oscuro du début. Le reste est pas foufou, c'est clairement pas un 3 sur 4. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2559/observations.html)
