Country: España / Spain Region: Cataluña / Catalunya Subregion: provincia de Tarragona Town: Horta de Sant Joan		
Difficulty: not as difficult	Grading: v2 a3 II	Total time: 1h35
Approachtime: 25min	Tourtime: 1h	Returntime: 10min
Altitude entry: 490m	Altitude exit: 425m	Delta Altitude: 65m
Canyon length: 750m	Highest rapell: 6m	Amount rapells: 2
Transport: on Foot	Rock type: conglomerate	drainage area: km ²
Season:	Orientation: Northwest	Best Time:
Rating: ★ 3.3 (2)	Info: ★ 0 ()	Belay: ★ 0 ()
Specialities: § Regulated, Permit required,		
Gear: Ropes: 1x20m		
Summary: (machine translated) Hiking, swimming and bouncing canyon, also good for children		
Hydrology:		
Access: (machine translated) We leave the AP-7 - Autopista del Mediterráneo, Tarragona to Valencia - just before reaching the Ebro and take the C-12 northward to Tortosa (not quite 20 km to the city center). In the town we continue on the C-12 northwards in the direction of Lleida About 3 km after the town of Xerta (and 14.5 km after Tortosa - center) we turn left on the N-230b in the direction of Gandesa. After another 7.2 km we turn left again onto the T-333 towards Valderrobres. Not quite 14 km after the last turnoff, we come to a T-junction, where the T-334 turns off to the right in a northerly direction towards Horta de Sant Joan. However, we continue on the T-333 for another 270 m, and then turn left onto the road that heads south towards the mountains. But already 270 m further on we turn left onto a dirt road in the direction of El Ventador Signpost: "Salt de Sotorres et El Ventador". The road leads into the valley of the Riu de Canaleta and up the other side of the hill. 2.2 km after the bridge (and 4.1 km from T-333) - we ignore two dirt roads on the left - we first come to the ford through the Cubars and a few meters later to a larger property. Here we can look down into a large basin with waterfall and mill under the rock wall. We park our car. Cf.: http://www.wikiloc.com/wikiloc/view.do?id=7896376		
Approach: (machine translated) From here we can follow the signs (including "Salt de Ventador"). We come to a ridge and follow the access down into the Riu. The old access via the beautiful entry waterfall with 6 m - jump is no longer allowed.		
Tour: (machine translated) The entrance waterfall we now see in the cauldron behind the large pool from below, with the 7 m - jump it is somewhat difficult. So we jump and walk downhill. We pass several small "Oscuros" and are already much too early at the exit of the canyon (which can also be climbed from here). Cf.: http://www.descensodebarrancos.com/barrancos/canaletes/topo/mapa.html		
Return: (machine translated) Turn right onto the clear path and follow it back to the car.

Automatisch importiert von Descente-Canyon.com für Canyon Canaletes Quelques jolis passages mais aucune continuité. Finalement le plus joli c'est la marche d'approche avec vue sur la cascade interdite et l'oscuro du début. Le reste est pas fofou, c'est clairement pas un 3 sur 4. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2559/observations.html>)
