Summary: (machine translated)
"feeder" to Mascun superiore brings some variety on a second ascent, nice 30 m - rappel

Hydrology:

Access: (machine translated)
On the N-240 from Lleida or on the A-138 from France through debn tunnel from Bielsa via Ainsa to Barbastro. On the ring road around the city and continue on the N-240 towards Huesca. About 22 km after Barbastro we turn right on the A-1229. Via Abiego and Bierge (turn left after Abiego) we arrive at Rodellar (about 30 km from the turnoff from the N-240).

Approach: (machine translated)
In Rodellar, follow the signs to Barranco Mascun. We come down to the stream, cross it and come to the spring on the right (orographic left) side. Continue northwards, passing the Bco Fornocal de Andrebot, where you climb up to the left towards Barrasil and Gorgas Negras and then, after a long stretch on the orographic left bank, you come to the point where the path crosses the stream to go up the other side towards Otin - La Costera path. We reach the plateau, may be able to see vultures perched on the rocky ledges above the canyon and look down into the abode of the wizards (Moorish Maskhun). With a bit of luck, the snow-covered peaks of the main Pyrenean ridge will loom on the horizon behind you. The path walks between stone walls at times and we come to 2 large oak trees. The path now descends and crosses a dry gully. Down this to the right we would come to the entry of the Bco. Otin.
However, we cross the chute and pass the abandoned village of Otin to the east of it. We cross 2 rivulets and then turn left past a detached house. We are now on a field path, on the right we see a spring catchment. The path climbs slightly, we cross a ridge and come to the junction of a path that leads us to the right to the entry to the Raisin (or to the Fajas del Mascun).

Tour: (machine translated)
A total of 6 rappels, mainly inclined rappel on sinter to the mouth of the Mascun Superior.

Return: (machine translated)
As a rule, one continues down the Mascun, cf. there.
At the confluence with the Mascun superiore, however, you can also go up it, bypass the next rappel points (Cascadas de Peña Guara) to the right (= orographic. left) and reach the large cauldron below the first rappel (Saltador de las Llanas). From here you can orographic. right via the cornice path of the 'high passages' (Fajas de Mascun) back to the entry of the Raisin.
