Not worthwhile as water quality poor and rather river walk in forest gorge

Approach:

Tour: (machine translated)
200m after the entry from the Mare a Mare Sur hiking trail, the village's barely clarified sewage pipe leads into the stream. Smells strongly of detergent, very slippery, in between granite slabs that can/must be downclimbed as there are no anchors.
Car remains and a lot of plastic waste from the last floods in the entire stream.
An environmental crime!
Not worthwhile as the water quality is poor and more of a river walk in a forest gorge
