Finally we did potok with clear waters, pools are deeper then last years. Nice flow before the snow melts start Last anchor should be rebuild this year, bolts got damaged.

2024-08-30 | Horst Lambauer | ★★☆☆ | 📖★★★★ | ⚓★★★★ | 🌊 Low | 🍏 Completed

It was relatively slippery during our inspection because there has been little water flow in recent weeks. Stands are older but fully ok. Forest gorge with a beautiful finale (machine translated)

Nice rappelling canyon, sharp edge in the waterfall in the middle of the canyon, the last abseiling triple cascade is the best, exposed anchor points and also not in the best conditions. It's also easy to miss the access road, we entered the canyon much higher than the standard start.
